CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

In this Draft Prospectus, the terms “we”, “us”, “our”, the “Company”, “our Company”, “BCPL Railway Infrastructure Limited” and “BRIL”, unless the context otherwise indicates or implies, refers to BCPL Railway Infrastructure Limited.

Certain Conventions

All references in this Draft Prospectus to “India” are to the Republic of India. All references in this Draft Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America.

Financial Data

Unless stated otherwise, the financial data in this Draft Prospectus is derived from our audited financial statements for the financial years ended March 31, 2013, 2014, 2015, 2016, 2017 and 2018 prepared in accordance with Indian GAAP, the Companies Act and restated in accordance with the SEBI (ICDR) Regulations and the Indian GAAP which are included in this Draft Prospectus, and set out in “*Financial Statements as Restated*” on page 170 of this Draft Prospectus.

Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year are to the 12 month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year.

There are significant differences between the Indian GAAP, the International Financial Reporting Standards (the “IFRS”) and the Generally Accepted Accounting Principles in the United States of America (the “U.S. GAAP”). Accordingly, the degree to which the financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices, the Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations on the financial disclosures presented in this Draft Prospectus should accordingly be limited. We have not attempted to quantify the impact of the IFRS or the U.S. GAAP on the financial data included in this Draft Prospectus, nor do we provide a reconciliation of our financial statements to those under the U.S. GAAP or the IFRS and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Certain figures contained in this Draft Prospectus, including financial information, have been subject to rounding adjustments. All decimals have been rounded off to two decimal points, except for figures in percentage. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. However, where any figures that may have been sourced from third-party industry sources are rounded off to other than two decimal points in their respective sources, such figures appear in this Draft Prospectus as rounded-off to such number of decimal points as provided in such respective sources.

Currency and units of presentation

In this Draft Prospectus, unless the context otherwise requires, all references to (a) ‘Rupees’ or ‘₹’ or ‘Rs.’ or ‘INR’ are to Indian rupees, the official currency of the Republic of India; (b) ‘US Dollars’ or ‘US\$’ or ‘USD’ or ‘\$’ are to United States Dollars, the official currency of the United States of America. All references to the word ‘Lakh’ or ‘Lac’ or ‘Lacs’, means ‘One hundred thousand’ and the word ‘Million’ means ‘Ten lakhs’ and the word ‘Crore’ means ‘Ten Million’ and the word ‘Billion’ means ‘One Thousand Million’.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Conditions and Results of Operations*” and elsewhere in this Draft Prospectus, unless otherwise indicated, have been calculated based on our restated financial statement prepared in accordance with Indian GAAP.

Industry and Market Data

Unless stated otherwise, industry and market data used throughout this Draft Prospectus has been obtained or derived from internal Company reports and industry and government publications, publicly available information and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although, our Company believes that industry data used in this Draft Prospectus is reliable, it has not been independently verified.

Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENTS

All statements contained in this Draft Prospectus that are not statements of historical facts constitute ‘*Forward Looking Statements*’. All statements regarding our expected financial condition and results of operations, business, objectives, strategies, plans, goals and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, our revenue and profitability, planned projects and other matters discussed in this Draft Prospectus regarding matters that are not historical facts. These forward-looking statements and any other projections contained in this Draft Prospectus (whether made by us or any third party) are predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections.

These forward-looking statements can generally be identified by words or phrases such as “will”, “aim”, “will likely result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

- general economic and business conditions in the markets in which we operate and in the local, regional and national and international economies;
- our ability to successfully implement strategy, growth and expansion plans and technological initiatives;
- our ability to respond to technological changes;
- our ability to attract and retain qualified personnel;
- the effect of wage pressures, seasonal hiring patterns and the time required to train and productively utilize new employees;
- general social and political conditions in India which have an impact on our business activities or investments;
- potential mergers, acquisitions restructurings and increased competition;
- occurrences of natural disasters or calamities affecting the areas in which we have operations;
- market fluctuations and industry dynamics beyond our control;
- changes in the competition landscape;
- our ability to finance our business growth and obtain financing on favorable terms;
- our ability to manage our growth effectively;
- our ability to compete effectively, particularly in new markets and businesses;
- changes in laws and regulations relating to the industry in which we operate changes in government policies and regulatory actions that apply to or affect our business;
- developments affecting the Indian economy; and
- Inability to meet our obligations, including repayment, financial and other covenants under our debt financing arrangements.

For a further discussion of factors that could cause our current plans and expectations and actual results to differ, please refer chapters titled “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operation*” on page 14, 99 and 206 respectively of this Draft Prospectus.

Forward looking statements reflects views as of the date of this Draft Prospectus and not a guarantee of future performance. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company / our Directors nor the Lead Manager, nor any of its affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the Lead Manager will ensure that investors in India are informed of material developments until such time as the listing and trading permission is granted by the Stock Exchange.

SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

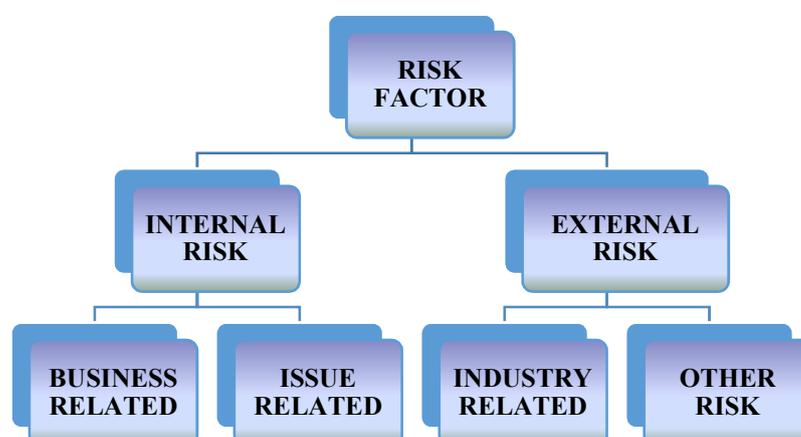

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 99, “Our Industry” beginning on page 82 and “Management’s Discussion and Analysis of Financial Conditions and Results of Operations” beginning on page 206 respectively, of this Draft Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;
- Some events may have material impact qualitatively instead of quantitatively;
- Some events may not be material at present but may have material impact in future.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of our Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviations” beginning on page 1 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS**A. BUSINESS RELATED RISKS**

1. *There are outstanding legal proceedings involving our Company, Promoters, Directors and Group Companies. Any adverse decision in such proceeding may have a material adverse effect on our business, results of operations and financial condition.*

We are involved in certain legal proceedings which are pending at different levels of adjudication before various courts, tribunals, enquiry officers, and appellate authorities. We cannot provide assurance that these legal proceedings will be decided in our favour. Any adverse decisions in any of the proceedings may have a significant adverse effect on our business, results of operations, cash flows and financial condition. A summary of the pending civil and other proceedings involving our Company is provided below:

A classification of legal proceedings is mentioned below:

Category	Type of cases	Number of Outstanding Matters	Aggregate Amount involved (₹ in Lakhs)
A. Cases filed against our Company			
Taxation	Income Tax Proceedings	5	23.40
	Tax Deduction at Source	3	1.10 including arrears of prior years
	GST, Sales Tax and Service Tax	10*	456.22
Other pending litigations	Civil proceedings	11**	53.06
B. Cases filed against our Promoters			
Criminal	Section 409/465/468/469/501/120B of Indian Penal Code, 1860	1	Not ascertainable
Taxation	Income Tax Proceedings	11***	0.28
Other pending litigations	Civil proceedings	2	0.53
C. Cases filed against our Directors			
Taxation	Income Tax Proceedings	1	0.0021
D. Cases filed against our Group Companies			
Taxation	Income Tax Proceedings	9***	56.99
	Tax Deduction at Source	3	6.10 including arrears of prior years

*Documents with respect to Sales Tax case for the period 2008-09 are not available with our Company and the amount of demand cannot be ascertained.

**Our Company is not able to trace the documents for 3 (three) claim cases out of 11 (eleven) cases filed against the Company, therefore the amounts of compensation claimed therein cannot be ascertained.

*** The amounts for two AYS for Promoters and one AY for Group Company (POL) are not ascertainable as the proceedings are not concluded and no demand has been raised till date.

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities. For further details of legal proceedings involving our Company, please see "Outstanding Litigations and Material Developments" beginning on page 216 of this Draft Prospectus

2. ***There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 1956/2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of our Company to that extent.***

There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 1956/2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of our Company to that extent.

3. ***Our Industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.***

Our industry being labour intensive is dependent on labour force for carrying out its execution tasks. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Though we have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain, flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

Our Industry is labour intensive and our business operations are sometimes executed with the help of employees of the railway board. Our Company also hires labour on contract basis to ensure smooth and timely completion of the projects. Any disputes or a demand for increase in wages could adversely affect our business operations.

4. ***We do not own our registered office and corporate office premises, which we have taken on lease. Any termination of agreements may require us to vacate such premises and adversely affect our business operations.***

Our registered office and corporate office is taken on lease from Mr. Arya Kumar Chatterjee, Mr. Rajesh Jaiswal, Mr. Brijesh Jaiswal, Mr. Mukesh Jaiswal, Mr. Tarit Chatterjee, if any such lease agreement under which we occupy the premises is not renewed on terms and conditions that are favorable to us, or at all, we may suffer a disruption in our operation which could have a material adverse effect on our business, financial condition and results of operations. If we do not comply with certain conditions of the lease, the lessor may terminate the lease, which could have an adverse effect on our operations and there can be no assurance that renewal of lease agreement with the owner will be entered into. In the event of non-renewal of lease, we may be required to shift our office to a new location and there can be no assurance that the arrangement we enter into in respect of new premises would be on such terms and conditions as the present one. For more details on properties taken on lease by our Company, please refer section "Land and Properties" in the chapter titled "Our Business" beginning on page 99 of the Draft Prospectus.

5. ***Some of our Corporate records including forms filed with Registrar of Companies are not traceable.***

Our Company was incorporated as a private limited company in the year 1995 under the provisions of the Companies Act, 1956. Online filing of RoC documents was initiated in the year 2006 and all forms prior to the said year were physically filed, hence certain forms could not be retrieved from the office of Registrar of Companies, Kolkata, West Bengal. Further our Company could not retrieve forms including but not limited to Return of Allotment, Registration of charges and modification of charges, Increase in Authorised Capital. Our Company cannot assure you that the filings were made in a timely manner or the information gathered through other available documents of our Company are correct. Our Company may not be in a position to attend and / or respond appropriately to any legal or business matter due to lack of lost / destroyed records and to that extent the same could affect our Company adversely in future.

6. We have entered into related party transactions in the past and may continue to do so in the future.

Our Company has entered into various transactions with our Promoter, Promoter Group, Directors and their Relatives and Group Company. While we believe that all such transactions are conducted on arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter "Related Party Transactions" beginning on page 168 of the Draft Prospectus.

7. We require a number of approvals, licenses, registration and permits for our business and failure to obtain or renew them in a timely manner may adversely affect our operations.

We require several statutory and regulatory permits, licenses and approvals in the ordinary course of our business, some of which our Company has either received, applied for or is in the process of application in case of renewal as and when required in the ordinary course. We were a private limited company in the name of "Bapi Construction Electrical Engineering Private Limited" after complying with the relevant provisions and procedures of Companies Act 1956, our company was converted into public limited company followed by the name change of our Company to "BCPL Railway Infrastructure Limited". There are some of the approvals which are in the previous name of our Company, we are taking necessary steps for transferring the same in the new name of our company. In case we fail to transfer/obtain the same in the name of our company, that could adversely affect our business or we may not be able to carry our business.

Any failure to apply for and obtain the required approvals, licences, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licences, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of our Company. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations. Please refer chapters titled "Key Industry Regulations and Policies" and "Government and Other Approvals" at pages 118 and 216 respectively of this Draft Prospectus.

8. Some of our group entity i.e. DASF Export Private Limited and Pancham Voyage LLP will not be included as our group entity.

We always comply with the statutory obligations applicable to our company, however one of our group company named "DASF Export Private Limited" has not filed any returns or comply with any statutory obligations since the inception, it may cause adverse effect to our business reputation. There are two of the group companies i.e. DASF Export Private Limited and Pancham Voyage LLP have not come under the chapter titled "Group Entities of our Company" as the application for strike off of DASF Export Private Limited has been filed under Companies Act, 2013 with Registrar of Companies (ROC), West Bengal and Closure Application for Pancham Voyage LLP has also been filed under the Limited Liability Partnership Act, 2008 with Registrar of Companies (ROC), West Bengal. The SRN No. of the form STK-2 is G86117959 and Form-24 is M06955942.

9. We are dependent on third party transportation providers for delivery of raw materials to us from our suppliers and delivery of our products to our clients. Any failure on part of such service providers to meet their obligations could have a material adverse effect on our business, financial condition and results of operation.

We are engaged in the field of railway infrastructure development involving design, drawing supply, erection, and commissioning sector of India, our success depends on the smooth supply and transportation of the raw materials required for electrification process from the manufacturers to our unit which are subject to various uncertainties and risks. In addition, raw materials may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials which may also affect our business and our results of operation negatively. A failure to maintain a continuous supply of raw materials in an efficient and reliable manner could have a material and adverse effect on our business, financial condition and results of operations. It must be noted that we are authorized to purchase the raw materials only from empaneled Government suppliers. The non-availability of the raw material may adversely impact our business.

- 10. Our Group Entity is engaged in the same line of business similar as our Company. We cannot assure that our Promoter will not favour the interests of that company over our interest or that the said entities will not expand which may increase our competition, which may adversely affect business operations and financial condition of our Company**

Our Group Entity namely, D.S. Engineering, is engaged in the similar line of business, as of our Company. Further, we have not entered into any non-compete agreement with the said entity. We cannot assure that our Promoter who has common interest in said entity will not favour the interest of the said entity. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and our Group Companies in circumstances where our respective interests' conflict. In cases of conflict, our Promoter may favour other companies/entities in which our Promoter has interest. There can be no assurance that our Promoter or our Group Companies or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. For details regarding Group Companies, please refer chapter titled "Group Entities of Our Company", on page no. 157 of this Draft Prospectus.

- 11. If we are unable to raise additional capital, our business prospects could be adversely affected.**

We operate in a capital-intensive industry, which requires substantial levels of funding. We will continue to incur significant expenditure in maintaining and growing our existing infrastructure. We expect our long-term capital requirements to increase significantly to fund our intended growth.

We cannot assure you that we will have sufficient capital resources for any future expansion plans that we may have. While we expect our cash on hand, cash flow from operations to be adequate to fund our existing commitments, our ability to pay these amounts is dependent upon the success of our operations. Additionally, the inability to obtain sufficient financing could adversely affect our ability to complete expansion plans. Moreover, we cannot assure you that market conditions and other factors would permit us to obtain future financing on terms acceptable to us, or at all.

- 12. A slowdown in economic growth in India could have an adverse effect on our business, results of operations and financial condition.**

We operate in the field of railway infrastructure development. A slowdown in economic growth could affect business and lead to a decrease in demand for our services for prolonged periods.

We cannot assure you that such macroeconomic and other factors, which are beyond our control, would not significantly affect demand for our services. Consequently, the occurrence of such events could have an adverse effect on our business, results of operations and financial condition.

- 13. We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.**

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers nor has any marketing tie up for our products. Further, our Company has not appointed any exclusive agents for handling its operations. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

- 14. Failure to successfully procure raw materials and non-availability or high cost of quality of Raw Material (Steel, copper etc.) or to identify new raw material suppliers could adversely affect us.**

We work in the field of Railway Infrastructure Development involving design, drawing, supply, erection and commissioning of 25KV, 50HZ Single Phase Traction Overhead equipment. Our work is dependent upon raw material which is steel items, copper, aluminum, zinc items, and various electrical and bulk erection materials. Non-availability and price fluctuation of these items may adversely affect our business and increase our costing too as a result the financial condition and business operation may suffer loss.

- 15. Concentration only in the specialized work i.e. 25KV Overhead electrification and Traction Substation work.**

We only concentrate in the area of railway electrification involving design, supply, erection and commissioning of 25KV, 50Hz Single phase traction overhead equipment, which is a part of the field of Railway Infrastructure

Development in India. The limited scope of work may cause adverse effect our business, financial condition and business operation.

16. The Offer for Sale Proceeds will not be available to our company

As on the date of this Draft Prospectus, following shareholders have specifically confirmed that they collectively hold 63,54,786 Equity Shares and that they have consented to offer up to 6,60,000 Equity Shares for sale in offer for sale.

Sr No.	Name of the Selling Shareholders	No. of Equity Shares Held	No. of Equity Shares Offered
1)	Jayanta Kumar Ghosh	15,29,006	1,65,000
2)	Aparesh Nandi	14,84,574	1,65,000
3)	Uday Narayan Singh	4,91,054	1,65,000
4)	Kanhai Singh	28,50,152	1,65,000

For further details, please refer chapter entitled “*The Issue*” on page 39 of this Draft Prospectus. The proceeds from the Offer for Sale will be remitted to the Selling Shareholders and our Company will not benefit from such proceeds.

17. Operation in the oversaturated Railway Zones may adversely affect our business and have an adverse impact on our result of operations and financial condition.

We operate mainly in oversaturated railway zones of India which result in delay in work progress due to non-availability of traffic block. This results to increase our labour cost and overhead cost and due to this our business adversely affects.

18. The shortage or non-availability of power facilities may adversely affect our business and have an adverse impact on our results of operations and financial condition.

Our business processes require substantial amount of power facilities. The quantum and nature of power requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is very high in view of increasing oil prices and other constraints. We are mainly dependent on State Government for meeting our electricity requirements. Any defaults or non-compliance of the conditions may render us liable for termination of the agreement or any future changes in the terms of the agreement may lead to increased costs, thereby affecting the profitability. Further since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power. Any disruption / non-availability of power shall directly affect our production which in turn shall have an impact on profitability and turnover of our Company.

19. There are no alternate arrangements for meeting our working capital requirements for the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our working capital requirements for the Objects of the Issue. We meet our working capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future could result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not yet identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer chapter titled “*Objects of the Issue*” on page 71 of this Draft Prospectus.

20. The industry segments in which we are operate being fragmented we face competition from other players, which may affect our business operations and financial conditions.

The market in which our company is doing business is highly competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as technical competence, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their services at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result

in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

21. *Guarantees from Promoter, Directors as well as others have been taken in relation to the credit facilities availed by our Company.*

Our Promoters and Directors have given guarantees to financial institutions in respect of credit facilities availed by our company. In an event any of the guarantors withdraws or terminates such guarantees, the lender for such facilities may ask for alternate guarantee/s, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantee/s satisfactory to the lenders and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information please refer the chapter titled “*Statement of Financial Indebtedness*” beginning on page 213 of this Draft Prospectus.

22. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 169 of this Draft Prospectus.

23. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

24. *Our success depends largely upon the services of our Directors, Promoter and other Key Managerial Personnel and our ability to attract and retain them.*

Our success is substantially dependent on the expertise and services of our Directors, Promoter and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

25. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Our Directors are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on pages 54 and 133 respectively, of this Draft Prospectus.

26. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement

the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

27. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Modernization and technology up-gradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

28. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidence could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

29. Our Group Companies have incurred losses in the previous financial years.

Sustained financial losses by our Group Companies may not be perceived positively by external parties such as customers, bankers, suppliers etc., which may affect our credibility and business operations. The following of our Group Companies have incurred losses in previous years:

Financial Performance of KBC Solvex Private Limited

(₹ in Lakhs)

30. Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, and formulation of a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios.

There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that are not waived by our lenders or are not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. Though these covenants are restrictive to some extent to our Company however it ensures financial discipline, which would help our Company in the long run to improve its financial performance. We did not get most of the NOC from our lenders.

For further information, please refer the chapter titled “*Statement of Financial Indebtedness*” on page 213 of the Draft Prospectus.

31. Our Company has a negative cash flow in its investing activities as well as financing activities in the past 5 years, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our investing activities as well as financing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

(₹ in lakhs)

Particulars	March 31, 2018	March 31, 2017	March 31, 2016	March 31, 2015	March 31, 2014
Net Cash from Operating Activities	218.74	289.26	16.10	527.31	214.74
Net Cash from Investing Activities	(75.46)	(75.13)	(197.64)	(292.08)	(197.58)
Net Cash from Financing Activities	(114.64)	(188.34)	77.98	(81.51)	11.73
Net Increase/ (Decrease) in Cash & Cash Equivalents	28.64	25.79	(103.56)	153.72	28.89

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

32. Insufficient cash flows to meet required payments on our debts and working capital requirements could adversely affect our Company’s operations and financial results

The business of our Company requires a significant amount of working capital to finance the payments for Man-power, day to day Expenses and term loans for establishment of office facilities and acquisition of equipment’s/vehicles. The working capital requirements of our Company are also affected by the credit lines that our Company extends to its customers, in line with industry practice. Moreover, our Company may need to raise further term loans and working capital loans in the future to meet its capital expenditure and to satisfy its working capital requirements. There can be no assurance that our Company will continue to be successful in arranging adequate working capital and term loans for its existing or expanded operations on acceptable terms or at all, which could adversely affect our Company’s operations and financial results.

33. Our inability to maintain an optimal level of inventory for our business may impact our operations adversely.

Our company is required to maintain optimal level of inventory at all the time. An optimal level of inventory is important to our business as it allows us to respond to customers demand effectively. If we over-stock inventory, our required working capital will increase and if we under-stock inventory, our ability to meet customer’s demand and our operating results may be adversely affected. Any mismatch between our planning and the actual off take by customers can impact us adversely.

34. Certain agreements/deeds may be inadequately stamped or may not have been registered as a result of which our operations may be impaired.

Our certain agreements/deeds may not have been stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute vis-à-vis the said

premises and our non-compliance of local laws relating to stamp duty and registration may adversely impact the continuance of our activity from such premises. Our deed of registered office and corporate office are not registered.

35. *Certain Agreements /deeds may be in the previous name of our company or in the name of the firms whose business has been took over by our company.*

Our certain agreements and deeds may be in the name of the erstwhile name of our company i.e. Bapi Construction Electrical Engineering Private Limited or in the name of Bapi Construction or U K Construction, whose business have been acquired by our company.

36. *Some of the KMPs is associated with our company for less than one year.*

Our Key Management Personnel, Company Secretary and Chief Financial Officer are associated with our Company for a period of less than one year therefore they may not have been accustomed to our company affairs till date. For details of Key Management Personnel and their appointment, please refer to chapter “*Our Management*” beginning on page 133 of this Draft Prospectus.

37. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.*

Our operations may be subject to incidents of theft or damage to inventory in transit, prior to or during stocking and display. Although till date we have never experienced any such instance, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition.

Additionally, losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

38. *There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all.*

In accordance with Indian law and practice, permission to list the Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Approval will require all other relevant documents authorizing the issuing of our Equity Shares to be submitted. There could be a failure or delay in listing our Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

39. *Any defects in our service could make our company liable for customer claims, which in turn could affect our Company’s results of operation.*

We are into service industry and our business is dependent mainly on how we maintain our relationship with our existing clients which helps to retain existing clients and to attract the new ones. Hence an unsatisfied client may be more damaging in our business than in other businesses. Our activities may subject us to the risk of significant legal liabilities to our clients and aggrieved third parties. In recent years, the volume of claims and amount of damages claimed in litigation and regulatory proceedings have been increasing due to strict regulations and investor awareness. These risks often may be difficult to assess or quantify and their existence and magnitude often remain unknown for substantial periods of time. Hence, we may incur significant legal expenses in defending against litigation. Substantial legal liability or significant regulatory action against us could have material financial effects on our Company or could even cause significant harm to our reputation, which could harm our business prospects.

40. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

- 41. Excessive reliance on our information technology systems and their failure could harm our relationship with customers, expose us to lawsuits or administrative sanctions or otherwise adversely affect our provision of service to customers and our internal operation.**

As part of our business strategy, we use high quality of information technology system to deliver our services in the best possible way. We have an exemplary track record for completion of the projects within the stipulated time period but there may be the system interruptions, errors, or downtime which could result from a variety of causes including changes in technology, technology failure, changes in system, and power failure etc. these may affect our business adversely.

- 42. Our operations may be adversely affected in case of industrial accidents at our working sites**

Usage of heavy machinery, short circuit of power supply for machines, etc. may result in accidents and fires, which could cause indirect injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Further, our plant and machinery and personnel may not be covered under adequate insurance for occurrence of particular types of accidents which could adversely hamper our cash flows and profitability.

- 43. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.**

After completion of the Issue, our Promoters and Promoter Group will collectively own 70.94 % of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

- 44. Negative publicity could adversely affect our revenue model and profitability.**

We work in the market where trust of the customers on us and upon the services provided by us matters a lot. Any negative publicity regarding our company or the services rendered by our company due to any other unforeseen events may affect our reputation and image which leads to the adverse effect on our business and goodwill as well.

- 45. Industry information included in this Draft Prospectus has been derived from industry reports commissioned by us for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.**

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Draft Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Prospectus.

- 46. The requirements of being a public listed company may strain our resources and impose additional requirements.**

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the

past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources band management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed company. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

47. *The average cost of acquisition of Equity Shares by our Promoters is lower than the issue price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the Issue Price as decided by our Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title "*Capital Structure*" beginning on page 54 of this Draft Prospectus.

Issue Specific Risks:

48. *There are restrictions on daily/weekly/monthly movements in the price of the Equity Shares, which may adversely affect a shareholders' ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

49. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- a. Volatility in the Indian and global capital market;
- b. Company's results of operations and financial performance;
- c. Performance of Company's competitors,
- d. Adverse media reports on Company or pertaining to the agriculture Industry;
- e. Changes in our estimates of performance or recommendations by financial analysts;
- f. Significant developments in India's economic and fiscal policies; and
- g. Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

50. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that

the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

51. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity shares after the issue.*

The Issue price of our equity Shares has been determined by fixed price method. This price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuation after the issue and may decline below the issue price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue price. For further details please refer the chapter titled “Basis for Issue Price” beginning on the page 78 of this Draft prospectus.

Some of the factors which may affect our share price without limitations are as follows:

- Reports on research by analysts.
- Changes in revenue.
- Variations in growth rate of our financial indicators such as earning per share, income, profit etc.
- General Market Condition
- Domestic and International Economy.

52. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the Trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur. However, under the provisions of the Regulation 36 of SEBI (ICDR) Regulations, the capital of the promoters would be locked in for three (3) years.

EXTERNAL RISKS

Industry Related Risks:

53. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks:

54. *The Companies (Amendment) Act, 2017 has effected significant changes to the existing Indian Company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

Companies Act, 2013 was notified in a phased manner starting from April 1, 2014. More recently Companies (Amendment) Act, 2017 has got President’s assent and has been notified on January 03, 2018. Some of the provisions and rules under the Companies Act, 2013 have been further modified. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which have been recently amended or the provisions which are yet to come into force. To ensure compliance with the requirements of the Companies Act, 2013, as amended till date, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

55. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian Company are generally taxable in India. Any gain on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax (“STT”) has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a

stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain on the sale of shares held for a period of 12 months or less will be subject to capital gains tax in India. Further, any gain on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to Securities Transactions Tax (STT) under Chapter VII of the Finance (No 2) Act, 2004. In case this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share is not be available on or after 1st day of April 2018 if the long-term capital gains exceed Rs. 1,00,000/- p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of Rs. 1,00,000/- pa. shall be chargeable at the rate of 10%. Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

56. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements, prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Prospectus.

As stated in the reports of the Auditor included in this Draft Prospectus under the chapter "*Financial Statements as Restated*" beginning on page 170 the financial statements included in this Draft Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Draft Prospectus. Accordingly, the degree to which the financial information included in this Draft Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

57. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

58. Financial instability in Indian Financial Markets could adversely affect our Company's results of operation and financial condition.

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial

markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

59. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and our industry contained in the Draft Prospectus.*

While facts and other statistics in this Draft Prospectus relating to India, the Indian economy and our industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Our Industry*” beginning on page 82 of this Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

60. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency a magnitude, which may negatively affect our stock prices.

61. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

62. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of Operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

63. *Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

64. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

65. The nationalized goods and services tax (GST) regimes implemented by the Government of India have impact on our operations.

The Government of India has from July 01, 2017 has implemented the Goods and Service Tax a comprehensive national goods and service tax (GST) regime that combines taxes and levies by the Central and State Governments into a unified rate structure.

66. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information. You should read the entire Draft Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Statements as Restated” and related notes beginning on page 14 and 170 respectively of this Draft Prospectus before deciding to invest in our Equity Shares.

THE WORLD ECONOMY

Global economic activity continues to firm up. Global output is estimated to have grown by 3.7 percent in 2017, which is 0.1 percentage point faster than projected in the fall and ½ percentage point higher than in 2016. The pickup in growth has been broad based, with notable upside surprises in Europe and Asia. Global growth forecasts for 2018 and 2019 have been revised upward by 0.2 percentage point to 3.9 percent. The revision reflects increased global growth momentum and the expected impact of the recently approved U.S. tax policy changes.

The effect of U.S. tax policy changes on U.S. growth is estimated to be positive through 2020, cumulating to 1.2 percent through that year, with a range of uncertainty around this central scenario. The cyclical upswing underway since mid-2016 has continued to strengthen. Some 120 economies, accounting for three quarters of world GDP, have seen a pickup in growth in year-on-year terms in 2017, the broadest synchronized global growth upsurge since 2010. Among advanced economies, growth in the third quarter of 2017 was higher than projected in the fall, notably in Germany, Japan, Korea, and the United States. Key emerging market and developing economies, including Brazil, China, and South Africa, also posted third-quarter growth stronger than the fall forecasts. High-frequency hard data and sentiment indicators point to a continuation of strong momentum in the fourth quarter. World trade has grown strongly in recent months, supported by a pickup in investment, particularly among advanced economies, and increased manufacturing output in Asia. Risks to the outlook are broadly balanced in the near term, but—as in the October 2017 WEO—remain skewed to the downside over the medium term. One notable threat to growth is a tightening of global financing terms from their current easy settings, either in the near term or later. Two common policy objectives tie advanced, emerging, and developing economies together. First, the need to raise potential output growth—through structural reforms to lift productivity and, especially in advanced economies with aging populations, enhance labor force participation rates—while making sure that the gains from growth are shared widely. Second, the imperative to increase resilience, including through proactive financial regulation and, where needed, balance sheet repair and strengthening fiscal buffers. Action is particularly important in a low-interest-rate, low-volatility environment with potential for disruptive portfolio adjustments and capital flow reversals.

OUTLOOK FOR 2017-18

ECONOMIC ACTIVITY

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium-term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 1) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering. Perhaps most significantly, the behavior of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding. On demonetization specifically, the cash to-

GDP ratio has stabilized, suggesting a return to equilibrium. A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers.

Meanwhile, developments in the agriculture sector bear monitoring. Three crop-specific developments are evident. Sowing has been lowered in both kharif and rabi, reducing the demand for labour. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farm gate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

FISCAL DEVELOPMENTS

The fiscal deficit for the first eight months of 2017-18 reached 112 percent of the total for the year, far above the 89 percent norm (average of last 5 years), largely because of a shortfall in non-tax revenue, reflecting reduced dividends from government agencies and enterprises. Expenditure also progressed at a fast pace, reflecting the advancing of the budget cycle by a month which gave considerable leeway to the spending agencies to plan in advance and start implementation early in the financial year. Partially offsetting these trends will be disinvestment receipts which are likely to exceed budget targets.

GST revenue collections are surprisingly robust given that these are early days of such a disruptive change. Government measures to curb black money and encourage tax formalization, including demonetization and the GST, have increased personal income tax collections substantially (excluding the securities transactions tax). From about 2 percent of GDP between 2013-14 and 2015-16, they are likely to rise to 2.3 percent of GDP in 2017-18, a historic high. Precise estimates of the government’s contribution to this improvement vary depending on the methodology used. An econometric exercise yields an estimate of Rs. 40,000 crores over the two fiscal years of 2016-17 and 2017-18. Another based on comparing the difference in actual tax buoyancy in 2016-17 and 2017-18 over the previous seven-years’ average buoyancy, yields an estimate of about Rs. 65,000 crores (both exclude the 25,000 crores collected under the Income Disclosure Scheme and Pradhan Mantri Garib Kalyaan Yojana). Thus, the sum of all government efforts increased income tax collections, thus far, between Rs. 65,000 and Rs. 90,000 crores. These numbers imply a substantial increase in reported incomes (and hence in formalization) of about 1.5 percent to 2.3 percent of GDP.

Another factor contributing to the rise in bond yields has been stepped-up Open Market Operations (OMO) by the RBI. This amounted to a net sale of about Rs. 90,000 crores during April-December 2017-18 (compared to a net redemption of Rs. 1.1 lakh crores during the same period in 2016-17) to sterilize the impact of foreign flows, themselves induced by high interest rates.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world economy remains buoyant

as today, growth could start recovering towards its medium term economic potential of at least 8 percent. Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private capex cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices require tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, reinstating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market “sudden stall” induced by sharp corrections to elevated stock prices. Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions. Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

INDIAN RAILWAYS

Introduction

The Indian Railways is among the world's largest rail networks. The Indian Railways route length network is spread over 115,000 km, with 12,617 passenger trains and 7,421 freight trains each day from 7,349 stations plying 23 million travellers and 3 million tonnes (MT) of freight daily. India's railway network is recognised as one of the largest railway systems in the world under single management.

The railway network is also ideal for long-distance travel and movement of bulk commodities, apart from being an energy efficient and economic mode of conveyance and transport.

The Government of India has focused on investing on railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.

Market size

During April-February 2017-18, the passenger traffic of Indian Railways reached 7.58 billion. The overall revenue of Indian Railways stood at US\$ 23.63 billion during April-February 2017-18. The passenger earnings grew to US\$ 6.8 billion and the freight earnings grew to US\$ 15.6 billion during the same period.

Investments/Developments

Foreign Direct Investment (FDI) inflows into Railways related components from April 2000 to December 2017 were US\$ 897.09 million.

Following are some of the major investments and developments in India's railways sector:

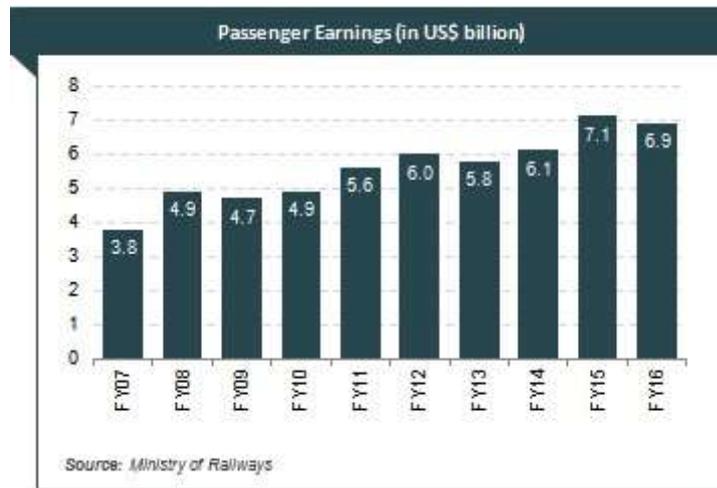

- A plan for redevelopment of Surat's railway station will soon be announced requiring a total expenditure of Rs 4,650 crore (US\$ 715.12 million).
- The Indian Railways is planning to invest around Rs 3,000 crore (US\$ 461.08 million) to convert 40 out of its 100 yards into smart yards and end manual inspections.

Government Initiatives

Few recent initiatives taken up by the Government are:

- The Government of India is going to come up with a 'National Rail Plan' which will enable the country to integrate its rail network with other modes of transport and develop a multi-modal transportation network.
- The Ministry of Railways, Government of India, has launched the Smart Freight Operation Optimisation & Real Time Information (SFOORTI) application to optimise freight operations and manage traffic flows.
- A 'New Online Vendor Registration System' has been launched by the Research Designs & Standards Organisation (RDSO), which is the research arm of Indian Railways, in order to have digital and transparent systems and procedures.
- Indian Railways is planning to standardise the number of coaches in trains to 22 or less which will lead to running of more trains, according to Mr Piyush Goyal, Minister of Railways.
- Indian Railways is targeting to increase its freight traffic to 3 billion tonnes by 2030 and have a 50 per cent share in overall goods movement.
- The Ministry of Railways is set to overhaul the US\$ 15.61 billion station redevelopment plan to increase the lease period for developers to 99 years, which is expected to give the real estate sector a boost.
- India's first National Rail and Transportation University which will be set up in Vadodara has been approved by the Union Cabinet, Government of India, to skill Indian railways' human resources and build capacity.
- The Government of India has signed an agreement with the Government of Japan under which Japan will help India in the implementation of the Mumbai-Ahmedabad high speed rail corridor along with a financial assistance that would cover 81 per cent of the total project cost.
- To enhance transparency in the processing and settlement of bills, Indian Railways has come up with a new bill tracking system for contractors/vendors of Indian Railways to track status of their bills.
- The cumulative savings of Indian Railways due to procurement of power under open access arrangements reached Rs 5,636 crore (US\$ 869.8 million) during April 2015 - October 2017 and are estimated to reach Rs 41,000 crore (US\$ 6.3 billion) by 2025.
- The Indian Railways has planned to phase out diesel locomotives over the next five years and replace them with electric ones, which will help them save about Rs 11,500 crore (US\$ 1.78 billion) yearly, stated Mr Piyush Goyal, Minister of Railways, Government of India.
- With the aim of boosting connectivity between India and Bangladesh, Mr Narendra Modi, Prime Minister of India, and Ms Sheikh Hasina, Prime Minister of Bangladesh, launched various connectivity projects including a new passenger train service between Kolkata and Khulna.

- To boost the industrial infrastructure of Chhattisgarh, the state government, in a joint venture with Indian Railways, has decided to build two fully electrified rail corridors worth Rs 10,000 crore (US\$ 1.54 billion).
- Indian Railways has put forward a global tender for obtaining 700,000 metric tonnes of railway track for improving track safety, as per Mr Piyush Goyal, Minister of Railways and Coal, Government of India.

Road Ahead

The Indian Railway network is growing at a healthy rate. In the next five years, the Indian railway market will be the third largest, accounting for 10 per cent of the global market. Indian Railways, which is one of the country's biggest employers, can generate one million jobs, according to Mr Piyush Goyal, Union Minister for Railways and Coal.

In order to develop three new arms of Dedicated Freight Corridor (DFC) in the various regions of the country, Indian government is planning to invest Rs 3,30,000 crores (\$50.98 billion). Also, Indian Railways is planning to invest in order to adopt European Train Control Systems (ETCS) which will help in the development of the infrastructural facilities.

Electrification highlights

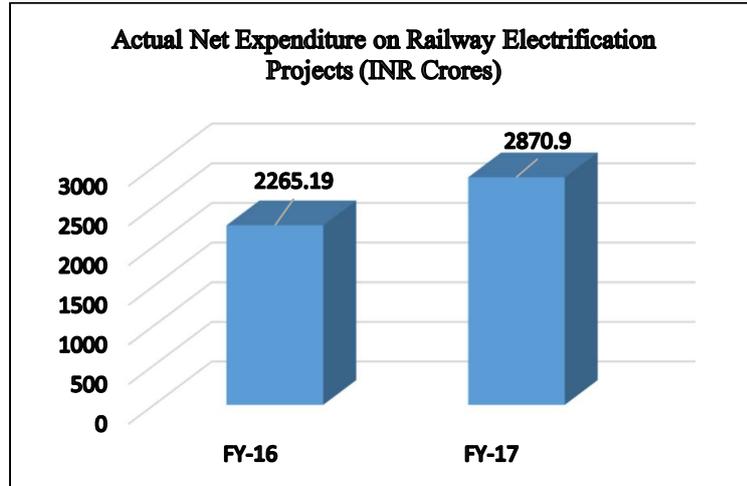

In the mission of complete electrification of railways, there has been a significant increase in electric locomotives from 5214 in FY-16 to 5399 in FY-17. Today more than 47% of total locomotives are electric in Indian Railways. There was an increase of 3.05% in total locomotives and 3.55% increase in electric locomotives in FY-17. In passenger transit electric engines run 709 km/day whereas their diesel counterpart runs only 598 km/day. In goods transit electric engines run 390 km/day whereas diesel engines run 377 km/day. This signifies the efficiency of electrification, where only 37.65% of the total tracks are electrified, there electric engines run 12.72% more than diesel engines. 65.10% of total freight traffic and 54.30% of total passenger traffic is carried on the electrified route. A major advantage can be seen in fuel cost of electrified networks as it constitutes only 36.14% of the total traction fuel cost on Indian Railways.

When we compare the average speed of goods diesel engine and electric engine we see electric engines have an average speed of 24 km/hour compared to 23.3 km/hour of diesel engines.

In spite of massive electrification campaign in recent years there is still lot of potential left in electrification of railways. Out of a total 67,368 RKMs only 25,367 RKMs have been electrified. However, % age of electrified to total route kilometres has been increasing over the years, from 8.73% in 1980-81 to 37.65% in 2016-17.

Monetary Side of Electrification

In the FY-19 budget, a total of Rs.1.48 lakh crores were allocated to capital expenditure of railways. This was the highest allocation made to railways ever. During the last 5 years government has spent Rs.678 crores to Rs.1668 crores annually on railway electrification projects.

SUMMARY OF OUR BUSINESS

Our Company was originally incorporated as “Bapi Construction Electrical Engineering Private Limited” with the Registrar of Companies, West Bengal, on December 08, 1995, as a Private Limited Company. Subsequently, upon change of name of our company as “BCPL Railway Infrastructure Private Limited”, a fresh Certificate of Incorporation was issued by the Registrar of Companies, West Bengal, on July 31, 2008. Subsequently, upon conversion to a Public Limited Company, “BCPL Railway Infrastructure Limited”, a fresh Certificate of Incorporation bearing Corporate Identification Number U51109WB1995PLC075801 was issued by the Registrar of Companies, West Bengal, on August 05, 2008.

Incorporated in the year 1995, we are engaged in the field of Railway Infrastructure Development involving design, drawing, supply, Erection and Commissioning of 25KV, 50Hz Single Phase Traction Overhead Equipment. The key clients of our Company include various zones of the Indian Railways like Eastern Railway, South Eastern Railway, South East Central Railway, Northern Railway, East Coast Railway, North Frontier Railway, East Central Railway, Central Organisation For Railway Electrification (CORE) as well as large Public and Private Sector Undertakings like RITES Ltd., Durgapur Projects Ltd., Essel Mining Industries Ltd., Adhunik Group, Usha Martin Industries Ltd, Jindal Steel and Power Ltd., Rungta Mines, Haldia Energy Limited, Electrosteel and many more.

Our Company has kept its focus on the Electrification sector of the Railways keeping in view the vast scope of work in the existing and the untapped areas. As a result, our Company has been able to build its resources capable of executing large, medium and small electrification projects in the most efficient and timely manner.

Our Company first made forays into a highly technical field, overhead electrification of the Indian Railways and through series of events over the successive years made rapid and spectacular progress in its chosen field of work and with dedication, team work, commitment, discipline and astute planning and strategy, scaled newer heights of progress and glory.

BCPL started its business as a CIVIL Contractor for the Indian Railways, after seeing the zeal and enthusiasm of four young entrepreneurs, the officers of Indian Railways suggested that they should help the railways in the electrification work. This was in the middle of the 90’s when there were very few contractors in the electrification area and the Indian Railways had realized the importance of electrification of the railway routes. Railway electrification as a branch of railway infrastructure development is one of the most difficult branches since the work involves construction in remote areas through which the train constantly pass. The work involves extreme levels of time and resource management since the work has to be undertaken in between the time intervals when there are no trains passing through the tracks. This is called “**TRAFFIC BLOCK**” in railway parlance.

Our Company was promoted by Mr. Aparesh Nandi, Mr. Jayanta Kumar Ghosh, Mr. Uday Narayan Singh and Mr. Kanhai Singh, who did not spare a second thought and immediately adhered to the advice of the senior officers and ventured into railway electrification. They have sound knowledge and experience in the industry in which we operate. Our Promoters have sound knowledge of finance, marketing, execution process and having the power to understand the requirement of the clients. Our Promoters unique ideas and innovative solutions to various operational problems along with a hardworking team are the main strength of our company.

Our total revenues stood at ₹ 5,063.59 Lakhs for the fiscal year ended on March 31, 2018, ₹ 3,498.76 Lakhs for the fiscal year ended on March 31, 2017 and ₹ 2,573.92 Lakhs For the fiscal year ended on March 31, 2016 respectively. Further, our PAT for the fiscal year ended on March 31, 2018 was ₹ 404.55 Lakhs on March 31, 2017 was ₹ 127.20 Lakhs and on March 31, 2016 was ₹ 96.11 Lakhs.

OUR COMPETITIVE STRENGTHS

1. Experience

We have successfully executed several large projects for railway electrification in the last two decades throughout the length and breadth of the country with particular thrust on the eastern, northern, coastal and the central parts and in the process earned the Goodwill and confidence of the clients. Our Company is a leading Railway Overhead Electrification (OHE) service provider for eastern, south eastern, east coast railway and northern railway and large corporates in the Orissa, Jharkhand and Chhattisgarh.

2. Experienced Promoters and Management

We have an experienced management team including our promoters who have more than two decades of experience in the Railway Overhead Electrification (OHE). Further to this they are assisted by an experienced, committed and loyal management team comprising professionals having a sound and adequate knowledge of technical, finance and administration activities in the Railway OHE Sector. We also have panel of industry experts acting as advisors for efficiently organizing and managing project work.

3. Engaged in an Industry of paramount national importance and undisputed growth potential

Electrified railway lines are the most cost efficient and pollution free means of railway transportation. Our Company has over the years mastered the skills of providing the basic infrastructure for operating the electrified railway routes. Besides keeping in view, the rising crude oil prices and international concerns on global warming due to the pollution emanating from the smoke coming out of diesel locomotives. The Country's dependence on the diesel locomotives has to be reduced at the earliest. As our company is providing the highly skilled service of developing the basic transmission lines from where the electric locomotives draw the energy. It goes without saying that its growth potential is undisputed and unparalleled in light of the fact that more than 50% of the railway routes are still non-electrified in order to improve the situation and to make 100% of the Railway Routes Electrified. The Indian Government through the Ministry of Railways has made concrete plans to complete the task of 100% electrifications in existing routes in the next 5 years. After electrification of existing routes, railways are planning to add new routes to the network, which would create more opportunities for our company.

4. Exemplary Track Record in Execution of the Projects

In the past, the projects undertaken by our company were completed in the allotted time to the fullest satisfaction of the clients in terms of Quality. Further our Company has the distinction of being awarded with a citation from the central organization of railway electrification. Allahabad for completing a project in a record period of eight months, however the allotted completion schedule was twelve months. During the last two decades there has not been a single instance where our company has been charged for failure to complete the projects in time because of deficiency in service.

5. Satisfied Chain of Vendors

Our Company has to procure its raw materials like masts, copper wire, insulators, isolators, transformers, tubes and other allied OHE fittings from various approved vendors. Over the years our company has been able to develop extremely cordial relationship with the vendors who have always stood by our company in times of need. Our Company, on its part has always tried to be punctual and transparent in keeping its commitment towards its vendors.

VISION AND MISSION

A rare combination of young and energetic people with new ideas, and older staff members with years of construction experience forms the foundation of the visionary ideals of BCPL Railway Infrastructure Ltd.

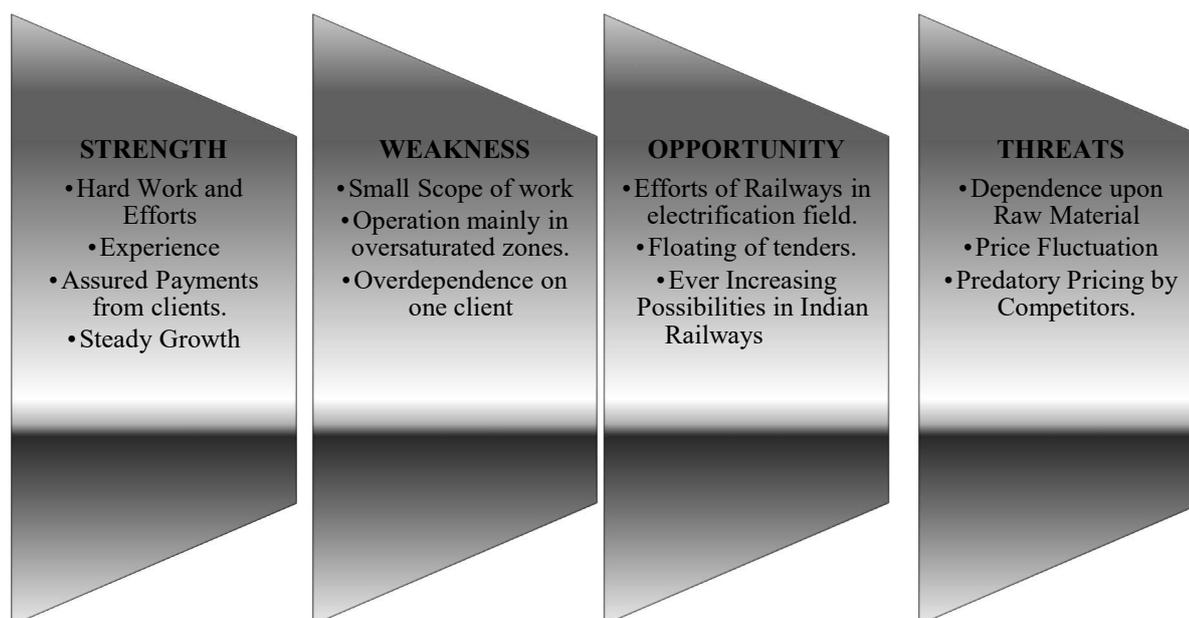

- It strives to identify market trends and customer requirements to create the Ideal product. It aims to treat every one of our customers equally.
- Our company visualizes to broaden its horizon and fulfil its commitment in the electrification sector of the Railways by maintaining a stringent and meticulous focus on quality.
- Our company aims at placing itself at the apex of the industry by providing products that showcases creativity and uniqueness in every single piece.

Our Company believes that an unbridled passion for excellence and innovation will help it to have a centre stage in the railway electrification sector in the existing and the untapped areas. With a single-minded mission our company wishes to provide complete electrification solutions and nurturing long-lasting relationships of trust with clients. Our Company visualizes to achieve its objectives in an environment of fairness and courtesy to its clients, employees, vendors, investors and society.

BUSINESS STRATEGIES

- The major objective of our Company is to maintain the highest quality standards in its works, in order to compete successfully with the behemoths of the construction industry. Accordingly, importance is given to maintenance of quality in execution with the help of our experienced and well-trained work force posted at all levels of project delivery. Various layers of checks and balances are in place to ensure that no compromise takes place with regard to quality.
- Our Company has robust systems of cost recording as well as methods of estimating the cost to complete a project at any stage of its execution cycle. This ensures that our Company remains financially competitive. Also, the material purchases and supplies are carefully monitored to ensure low inventory.
- Entrepreneurship in simple words can be defined as “**ZEAL TO ACHIEVE WHAT ONE PLANS TO ACHIEVE**”. Personnel in high positions are selected on the basis of their entrepreneurship qualities. Thereafter, they are motivated to lead their team to achieve predetermined targets set by them.
- Our employees are encouraged to take calculated risks within the precincts of our company’s Corporate Governance Standards. In other words, the employees are allowed to take decisions if they feel that the same would be approved by the board keeping in mind the corporate philosophy. By this employee are able to execute the tasks at their hands in faster and efficient manner. Similar working styles may be adopted by the officers for serving and by doing so they can also achieve remarkable results.
- There is a strong adherence to maintaining excellent relationship with the customers both in the public as well as the private sector. In addition, constant communication is maintained with clients for updating them with progress status, likely bottlenecks and other relevant issues.
- We feel that “Our Best Teacher is Our Last Mistake”. This helped us to remove fear of taking decisions provided. The decision is taken in the right perspective and with a proper ground work.
- We always encourage our employees to endeavour to keep the thinking process simple to that the sense of fear can be avoided in case of difficult tasks. This policy has helped us to undertake extreme difficult tasks keeping the moral and confidence of our employees intact.

SWOT ANALYSIS

Strength	Weakness	Opportunity	Threat
<ul style="list-style-type: none"> • We have through hard work and efforts over the past 34 years achieved a niche in the market for this specialized scope of work. • We value our experienced staff strength that has promoted the growth of the organization. • We mainly cater to the Indian Railways whose payment record is exemplary, resulting in healthy working capital position and positive operational cash flows. • We have been growing steadily since F.Y. 2015-2016 which has resulted in achievement of 100% growth of the top line between F.Y.-2015-2016 and F.Y.-2017-2018. 	<ul style="list-style-type: none"> • We concentrate only on specialized scope of work namely 25KV Overhead Electrification and Traction Substation Work. • We operate mainly in oversaturated Railway zones which result in delay in work progress due to non-availability of traffic block. This results in loss of man days and escalating our labour costs. • There is overdependence on one client i.e. The Indian Railways. This factor tough, is partly mitigated by the fact that the Indian Railways have several independent geographical units given the sheer size of India. 	<ul style="list-style-type: none"> • There has been a conscious effort by the Indian Railways for electrifying its routes. • This opens up enormous opportunity for our company to float tenders and take up contracts. • The Indian Railways in on the path of expanding its reach to untapped areas especially in the North Eastern part of the Country. Further the Government is contemplating to improve the average speed of the trains, signaling systems, safety mechanism. These factors can provide immense opportunities for our company to grow its business in its present area of electrification and diversify into signaling and electrical systems present in safety devices. 	<ul style="list-style-type: none"> • Our work is dependent on raw material which is steel items, copper, aluminium, zinc items and various electrical and bulk erection materials. • Fluctuating prices of such raw materials, critical bottlenecks in the supply of for unpredictable lead time in procurement of such supplies, increasing rates of freight pose problems for our company. • The Competition in our Company's area of business is tough and consists large players and numerous small players in the unorganized sector. While our Company has been able to stand up to the competition and continuous efforts in the area of efficiency enhancement, there is always danger of predatory pricing.

Market Maker Registration No. (SME Segment of BSE)	INB231044638

Gretex Share Broking Private Limited (Formerly known as Sherwood Securities Private Limited) and NNM Securities Private Limited registered with SME Platform of BSE will act as the market maker and have agreed to receive or deliver the specified securities in the market making process for a period of three (3) years from the date of listing of our Equity Shares or for a period as may be notified by amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the BSE Limited and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

- 1) The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
- 2) The minimum depth of the quote shall be ₹ 1,00,000. However, the investors with holdings of value less than ₹ 1,00,000 shall be allowed to offer their holding to the Market Maker in that scrip provided that they sell their entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of ₹ [●] per share the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be ₹ 1,00,000 until the same, would be revised by BSE.
- 3) After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25%. (Including the 5% of Equity Shares of the Issue.) Any Equity Shares allotted to Market Maker under this Issue over and above 5% of Issue Size would not be taken in to consideration of computing the threshold of 25%. As soon as the Shares of market maker in our Company reduce to 24%, the market maker will resume providing 2-way quotes.
- 4) There shall be no exemption/threshold on downside. However, in the event the market maker exhausts his inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.
- 5) Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
- 6) There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Gretex Share Broking Private Limited and NNM Securities Private Limited are acting as the Market Makers.
- 7) The shares of our Company will be traded in continuous trading session from the time and day our company gets listed on SME Platform of BSE Limited and Market Maker will remain present as per the guidelines mentioned under BSE Limited and SEBI circulars.
- 8) There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

- 9) The Market Maker shall have the right to terminate said arrangement by giving a three month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker.
- 10) In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations, 2009. Further our Company and the Lead Manager reserve the right to appoint other Market Maker either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.
- 11) BSE Limited SME Exchange will have all margins which are applicable on the BSE Limited Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE Limited can impose any other margins as deemed necessary from time-to-time.
- 12) BSE Limited SME Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities/ trading membership.
- 13) The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
- 14) Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:
- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

The Equity Shares that are being locked-in are not, and will not be, ineligible for computation of Promoters' Contribution under Regulation 33 of the SEBI (ICDR) Regulations. In this computation, as per Regulation 33 of the SEBI Regulations, our Company confirms that the Equity Shares locked-in do not, and shall not, consist of:

- (i) The Equity Shares acquired during the three years preceding the date of this Draft Prospectus:
 - for consideration other than cash and revaluation of assets or capitalization of intangible assets, or
 - bonus shares issued out of revaluations reserves or unrealized profits or against equity shares which are otherwise ineligible for computation of Promoters' Contribution;
- (ii) The Equity Shares acquired during the year preceding the date of this Draft Prospectus, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;
- (iii) The Equity Shares issued to the Promoters upon conversion of a partnership firm; and
- (iv) The Equity Shares held by the Promoters that are subject to any pledge or any other form of encumbrance.

Specific written consent has been obtained from the Promoters for inclusion of the Equity Shares for ensuring lock-in of three years to the extent of minimum 20% of post Issue Paid-up Equity Share Capital from the date of allotment in the proposed public Issue.

The minimum Promoters' Contribution has been brought to the extent of not less than the specified minimum lot and from the persons defined as Promoters under the SEBI (ICDR) Regulations, 2009. The Promoters' Contribution constituting 20% of the post issue capital shall be locked-in for a period of three years from the date of Allotment of the Equity Shares in the Issue.

The Equity Shares held by our Promoters may be transferred to and among the Promoter Group or to new promoters or persons in control of our Company, subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the Takeover Code, as applicable.

Equity Shares locked-in for one year

Other than the Equity Shares held by our Promoters, which will be locked-in as minimum Promoters' contribution for three years, all pre-Issue Equity Shares shall be subject to lock-in for a period of one year from the date of Allotment in this Issue.

Other requirements in respect of 'lock-in'

Pursuant to Regulation 39 of the SEBI (ICDR) Regulations, the locked-in Equity Shares held by our Promoters can be pledged with any scheduled commercial bank or public financial institution as collateral security for loans granted by such scheduled commercial bank or public financial institution, provided that (i) the pledge of shares is one of the terms of sanction of the loan and (ii) if the shares are locked-in as Promoters' contribution for three years under Regulation 36(a) of the SEBI (ICDR) Regulations, then in addition to the requirement in (i) above, such shares may be pledged only if the loan has been granted by the scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Pursuant to Regulation 40 of the SEBI (ICDR) Regulations, Equity Shares held by our Promoters, which are locked-in in accordance with Regulation 36 of the SEBI (ICDR) Regulations, may be transferred to and among our Promoters and any member of the Promoter Group, or to a new promoter or persons in control of our Company subject to continuation of the lock-in in the hands of the transferee for the remaining period and compliance with the Takeover Regulations, as applicable.

Further, pursuant to Regulation 40 of the SEBI (ICDR) Regulations, Equity Shares held by shareholders other than our Promoters which are locked-in in accordance with Regulation 37 of the SEBI (ICDR) Regulations, may be

transferred to any other person holding shares which are locked-in, subject to continuation of the lock-in in the hands of the transferee for the remaining period and compliance with the Takeover Regulations, as applicable.

We further confirm that our Promoters' Contribution of 20.00% of the post-Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

8. No share has been purchased / sold by the Promoters and Promoter Group, directors and their immediate relatives during last six months.

BCPL Railway Infrastructure Limited

35. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing this Draft Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.
36. For the details of transactions by our Company with our Promoter Group, Group Companies during the financial years ended March 31, 2014, 2015, 2016, 2017 and 2018 please refer "*Financial Statements as Restated*" on page 170 of this Draft Prospectus.

SECTION IV-PARTICULARS OF THE ISSUE

OBJECTS OF THE ISSUE

The Issue consists of a fresh issue of 42,00,000 Equity Shares and an offer for sale of up to 6,60,000 Equity Shares by the Selling Shareholders of our Company aggregating to ₹ [●] Lakhs.

Offer for sale

Our Company will not receive any proceeds from the Offer for Sale.

The Selling Shareholders will be entitled to the proceeds of the Offer for Sale of their respective portions of the Offered Shares, respectively net of their proportion of Offer related expenses. The fees and expenses relating to Offer shall be share in proportion mutually agreed between our Company and the respective Selling Shareholders in accordance with applicable law. Our Company will not receive any proceeds from the Offer for Sale.

Objects of the Fresh Issue

Our Company proposes to utilize the funds which are being raised through this Issue towards the below mentioned object and gain benefits of listing on SME Platform of BSE Limited:

- To Meet working capital requirement;

We believe that listing will enhance our corporate image and brand name and create a public market for Equity Share of our Company in India and will further enable us to avail future growth opportunities. Our Company is primarily engaged in the field of Railway Infrastructure Development involving design, drawing, supply, Erection and commissioning of 25KV, 50Hz Single Phase Traction Overhead Equipment. The main object clause and the ancillary object clause of the Memorandum of Association of our Company enable us to undertake our existing activities and the activities for which we are raising funds through the Issue. The existing activities of our Company are within the object clause of our Memorandum. The Fund requirement and deployment is based on internal management estimates and has not been appraised by any bank and financial institution.

Requirement of Funds

Our funding requirement is depending on a number of factors which may not be in the control of our management, changes in our financial condition and current commercial condition. Such factors may entail rescheduling and / or revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure.

The following table summarizes the requirement of funds:

Particulars	Amount (₹in Lakhs)
Gross Proceeds from the Issue	[●]
Less: Proceeds of the Offer for Sale	[●]
Less: Issue related expenses to be borne by the Company*	[●]
Net Proceeds of the Fresh Issue	[●]

* The fees and expenses relating to the Issue include only the Fresh Issue expenses in the proportion mutually agreed between the Company and the Selling Shareholders in accordance with applicable law.

Utilization of Net Proceeds of the Fresh Issue Proceeds: The Net proceeds will be utilized to finance Working Capital Requirement in tune of ₹ [●] Lakh respectively.

Means of Finance

The requirements of the objects detailed above are intended to be funded from the Proceeds of the Fresh Issue and Internal Accruals. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Fresh Issue.

Since the entire fund requirements are to be funded from the proceeds of the Issue. Accordingly, there is no requirement to make firm arrangements of finance under Regulation 4(2)(g) of the SEBI (ICDR) Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Issue.

The fund requirements are based on internal management estimates and have not been appraised by any bank or financial institution or any other independent agency. These are based on current conditions and are subject to change in the light of changes in external circumstances or costs or other financial conditions and other external factors.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Unsecured Loans.

As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company's historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our Company's management.

For further details on the risks involved in our business plans and executing our business strategies, please refer the chapter titled "Risk Factors" beginning on page 14 of this Draft Prospectus.

Details of the use of the proceeds

To Meet Working Capital Requirement

Our business is working capital intensive. We finance our working capital requirement from our internal accruals. Considering the existing and future growth, the incremental working capital needs of our Company, as assessed based on the internal workings of our Company is expected to reach ₹2,010.97 Lakhs for FY 2018-2019. We intend to meet our working capital requirements to the extent of ₹ [●] Lakhs from the Net Proceeds of this Issue and the balance will be met from internal accruals at an appropriate time as per the requirement.

Basis of estimation of working capital

Assumptions for Holding Levels

(In Days)

Particulars	Holding level as on March 31, 2018	Holding level as on March 31, 2019
Current Assets		
Inventories:		
Work in progress	134	124
Trade Receivables	53	55
Current Liabilities		
Trade Payables	17	10

Justification for Holding Period Levels

Particulars	Detail
Inventories:	
Work in Progress	Inventory Levels compared to turnover, expected to fall to 124 days from 134 days due to better efficiency both at our company's end and also at the end of the client. Further it may be noted that the inventory levels in FY 2017-18 have registered a substantial fall from 191 days to 134 days and the trend is expected to continue.
Trade Receivables	Trade receivables in FY 2017-18 was 53 days of sales and our company has made a modest increase of 2 days in the projections considering the experience and usual uncertainties like absence of officer/ clerk responsible for bill processing.
Trade Payables	With improved fund position post the issue, our company intend to avail shorter credits from the suppliers which would help them in increasing their projected margin by 1.5%. As a result, our company have projected a decrease in credit period to the tune of 7 days from 17 to 10 days.

The Audit committee and the Board of Directors of our Company will monitor the utilization of funds raised through this public issue. Pursuant to Regulation 32 of SEBI Listing Regulations, 2015, our Company shall on half yearly basis disclose to the Audit Committee the Applications of the proceeds of the Issue. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than stated in this Draft Prospectus and place it before the Audit Committee. Such disclosures shall be made only until such time that all the proceeds of the Issue have been utilized in full. The statement of funds utilized will be certified by the Statutory Auditors of our Company.

Further, in accordance with SEBI Listing Regulations, 2015, our Company shall furnish to the Stock Exchanges on a half yearly basis, a statement indicating material deviations, if any, in the utilization of the Net Proceeds for the objects stated in this Draft Prospectus.

Interim Use of Proceeds

Pending utilization of the Issue proceeds of the Issue for the purposes described above, our Company will deposit the Net Proceeds with scheduled commercial banks included in schedule II of the RBI Act.

Our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any listed Company or for any investment in the equity markets or investing in any real estate product or real estate linked products.

Variation in Objects

In accordance with Section 27 of the Companies Act, 2013, our Company shall not vary the objects of the Issue without our Company being authorized to do so by the Shareholders by way of a special resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act and shall be published in accordance with the Companies Act and the rules thereunder. As per the current provisions of the Companies Act, our Promoter or controlling Shareholders would be required to provide an exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other Confirmations

There are no material existing or anticipated transactions with our Promoters, our Directors, and our Company's Key Managerial Personnel in relation to the utilization of the Net Proceeds. No part of the Net Proceeds will be paid by us as consideration to our Promoters, our Directors or Key Managerial Personnel except in the normal course of business and in compliance with the applicable laws. STATEMENT OF POSSIBLE TAX BENEFITS

To
The Board of Directors,
BCPL Railway Infrastructure Limited,
112, Raja Ram Mohan Roy Sarani,
Kolkata – 700 009

Dear Sirs,

Sub: Statement of possible special tax benefits (“the Statement”) available to BCPL Railway Infrastructure Limited (“the Company”) and its shareholders prepared in accordance with the requirements in Schedule VIII-Part A-Clause (VII) (L) of the Securities Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2009, as amended (“the Regulations”)

We hereby report that the enclosed annexure, prepared by the Management of the Company, states the possible special tax benefits available to the Company and the shareholders of the Company under the Income - Tax Act, 1961 (‘Act’) as applicable to the Financial Year 2018-19 relevant to Assessment Year 2019-20, presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the Act. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon fulfilling such conditions which, based on business imperatives which the Company may face in the future, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed annexure cover only special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company or its shareholders. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. A shareholder is advised to consult his/ her/ its own tax consultant with respect to the tax implications arising out of his/her/its participation in the proposed issue, particularly in view of ever changing tax laws in India.

We do not express any opinion or provide any assurance as to whether:

- the Company or its shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

No assurance is given that the revenue authorities / courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We would not assume responsibility to update the view, consequence to such change.

We shall not be liable to Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith of intentional misconduct.

The enclosed annexure is intended for your information and for inclusion in the Draft Prospectus in connection with the proposed issue of equity shares and is not to be used, referred to or distributed for any other purpose without our written consent.

THE WORLD ECONOMY

Global economic activity continues to firm up. Global output is estimated to have grown by 3.7 percent in 2017, which is 0.1 percentage point faster than projected in the fall and ½ percentage point higher than in 2016. The pickup in growth has been broad based, with notable upside surprises in Europe and Asia. Global growth forecasts for 2018 and 2019 have been revised upward by 0.2 percentage point to 3.9 percent. The revision reflects increased global growth momentum and the expected impact of the recently approved U.S. tax policy changes.

The effect of U.S. tax policy changes on U.S. growth is estimated to be positive through 2020, cumulating to 1.2 percent through that year, with a range of uncertainty around this central scenario. The cyclical upswing underway since mid-2016 has continued to strengthen. Some 120 economies, accounting for three quarters of world GDP, have seen a pickup in growth in year-on-year terms in 2017, the broadest synchronized global growth upsurge since 2010. Among advanced economies, growth in the third quarter of 2017 was higher than projected in the fall, notably in Germany, Japan, Korea, and the United States. Key emerging market and developing economies, including Brazil, China, and South Africa, also posted third-quarter growth stronger than the fall forecasts. High-frequency hard data and sentiment indicators point to a continuation of strong momentum in the fourth quarter. World trade has grown strongly in recent months, supported by a pickup in investment, particularly among advanced economies, and increased manufacturing output in Asia. Risks to the outlook are broadly balanced in the near term, but—as in the October 2017 WEO—remain skewed to the downside over the medium term. One notable threat to growth is a tightening of global financing terms from their current easy settings, either in the near term or later. Two common policy objectives tie advanced, emerging, and developing economies together. First, the need to raise potential output growth—through structural reforms to lift productivity and, especially in advanced economies with aging populations, enhance labor force participation rates—while making sure that the gains from growth are shared widely. Second, the imperative to increase resilience, including through proactive financial regulation and, where needed, balance sheet repair and strengthening fiscal buffers. Action is particularly important in a low-interest-rate, low-volatility environment with potential for disruptive portfolio adjustments and capital flow reversals.

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China's unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.
- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary man oeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

OUTLOOK FOR 2017-18

ECONOMIC ACTIVITY

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium-term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 1) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering. Perhaps most significantly, the behavior of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding. On demonetization specifically, the cash to-GDP ratio has stabilized, suggesting a return to equilibrium. A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers.

Meanwhile, developments in the agriculture sector bear monitoring. Three crop-specific developments are evident. Sowing has been lowered in both kharif and rabi, reducing the demand for labour. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farm gate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

MACRO ECONOMIC INDICATORS

The CSO has forecast real GDP growth for 2017-18 at 6.5 percent. However, this estimate has not fully factored in the latest developments in the third quarter, especially the greater-than-CSO forecast exports and government contributions to demand. Accordingly, real GDP growth for 2017-18 as a whole is expected to be close to 6 3/4 percent. Given real GDP growth of 6 percent in the first half, this implies that growth in the second half would rebound to 7.5 percent, aided by favourable base effects, especially in the fourth quarter. Average CPI inflation for the first nine months has averaged 3.2 percent and is projected to reach 3.7 percent for the year as a whole. This implies average CPI inflation in the last quarter of 5 percent, in line with the RBI’s forecast. Therefore, the GDP deflator is expected to grow by 3.6 percent for 2017-18, somewhat higher than the CSO’s forecast of 2.8 percent. Consequentially, nominal GDP growth is estimated at 10.5 percent, compared with the CSO’s 9.5 percent estimate.

BCPL Railway Infrastructure Limited

After 13 months of continuously undershooting the inflation target by an average of 130 basis points, headline inflation for the first time crossed the RBI's 4 percent target in November, posting a rate of 5.2 percent in December 2017. The recent upswing in inflation stems from rising global oil prices (not all of which has been passed on to consumers), unseasonal increases in the prices of fruits and vegetables, and the 7th Pay Commission housing rent allowances, which mechanically increase inflation. Stripped of all these factors, underlying inflation has been increasing at a more modest pace, reaching 4.3 percent at end-December—in part because firms are passing the incidence of GST on to final consumers only gradually.

The current account deficit has also widened in 2017-18 and is expected to average about 1.5-2 percent of GDP for the year as a whole. The current account deficit is well below the 3 percent of GDP threshold beyond which vulnerability emerges. Meanwhile, foreign exchange reserves have reached a record level of about \$432 billion (spot and forward) at end-December 2017, well above prudent norms.

Fiscal Deficit:

- Central Government is confident of achieving fiscal deficit of 3.2 per cent of GDP for 2017-18.
- The fiscal deficit during April-November 2017 has reached 112 per cent of budgeted expenditure as compared to 85.8 per cent during the corresponding period last year.
- Revenue and fiscal deficits of states as a percentage of corresponding budget estimates is lower in the current year as compared to the previous year.

GDP Growth:

- GDP growth expected to be between 6.5 and 6.75 per cent in 2017-18.
- Real GDP growth expected at 6.5 per cent in 2017-18
- GVA growth at basic prices is expected to be 6.1 per cent in 2017-18.

Inflation and monetary policy:

- Average retail inflation, measured by Consumer Price Index (CPI), in 2017-18 (April – December) seen at 3.3 per cent.
- Average Wholesale Price Index (WPI) inflation, in 2017-18 (April – December) seen at 2.9 per cent from 1.7 per cent in 2016-17.
- The Reserve Bank of India (RBI) has cut the repo rate by 25 basis points to 6.0 per cent in August 2017.

External Sector:

- The current account deficit has declined to reach about 1.8 per cent of GDP in the first half of FY2018.
- During April-December 2017, trade deficit increased by 46.4 per cent over corresponding period of previous year.
- During April-December 2017, exports grew 12.1 per cent to US\$ 223.5 billion, while imports increased by 21.8 per cent to US\$ 338.4 billion.
- Private transfer receipts, most of which is composed of remittances from Indians working abroad, increased by 10 per cent to US\$ 33.5 billion in first half of 2017-18.

Performance of key sectors:

Agriculture and food management:

- The growth rate in Gross Value Added (GVA) by the agriculture and allied sectors is estimated to be 4.9 per cent for 2016-17, as per provisional estimates.
- The production of Kharif food-grains during 2017-18 is estimated at 134.7 million tonnes compared to 138.5 million tonnes in 2016-17.
- The area sown under rabi crops during 2017-18 has reached 61.78 million hectares as of January 19, 2018.
- Around 840,000 hectares of land was brought under micro-irrigation during 2016-17.

- Coverage of non-loanee farmers under the Pradhan Mantri Fasal Bima Yojana (PMFBY) increased 123.5 per cent in 2016-17 and the scheme is being implemented in 25 states/UTs in 2017. The scheme covers farmers from pre-sowing to post harvest against natural non-preventable risks.

Industries, corporate and infrastructure sector:

- Growth rate in the Gross Value Added (GVA) by the industrial sector was 5.6 per cent in 2016-17 and 5.8 per cent in the second quarter of 2017-18.
- During April-November 2017, the Index of Industrial Production (IIP) grew 3.2 per cent, while registering a growth rate of 8.4 per cent in November 2017, the highest in 25 months.
- The eight-core infrastructure supportive industries, viz. coal, crude oil, natural gas, refinery products, fertilizers, steel, cement and electricity that have a total weight of nearly 40 per cent in the IIP, registered a cumulative growth of 3.9 per cent during April-November 2017.
- The performance of corporate sector highlighted that the growth in sales of more than 1700 non-government non-financial (NGNF) listed manufacturing companies was 9.5 per cent in Q2 2017-18 compared to 3.7 per cent in Q2 2016-17.
- As of September 2017, India had 115,530 km of national highways, 176,166 km of state highways and 53,26,166 km of other roads. Under the new umbrella program 'Bharatmala Pariyojana' the government is aiming holistic development of highways in the country.

Services Sector:

- The services sector is projected to grow at 8.3 per cent in 2017-18, as against 7.7 per cent in 2016-17.
- As per World Trade Organisation (WTO) data, India's share in the exports of commercial services in the world increased to 3.4 per cent in 2016 from 3.3 per cent in 2015.
- In terms of growth in tourism sector, between January-December 2017, Foreign Tourist Arrivals (FTAs) were 10.2 million with a growth of 15.6 per cent and foreign exchange earnings (FEE) were at US\$ 27.7 billion with a growth of 20.8 per cent.

Public Finance:

- The growth in non-debt receipts at 4.58 per cent during April-November 2017 as against the growth rate of 25.8 per cent in the previous year.
- The realisation of the gross tax revenue during April-November 2017 as ratio of the budget estimates for 2017-18 was 56.9 per cent compared to 57.2 per cent in the corresponding period of the previous year.

Ease of Doing Business in India:

- Various reforms taken by the Government of India have led to increase in India's ranking in the World Bank's Ease of Doing Business Index from 130 in 2017 to 100 in 2018.
- India's ranking in the taxation and insolvency parameters improved by 53 and 33 spots, respectively, on the back of administrative reforms undertaken by the Government of India in the areas of taxation and passage of Insolvency and Bankruptcy Code (IBC), 2016.
- To improve the ease of doing business in the country, the government has taken various initiatives to improve contract enforcement. Over 1,000 redundant legislations have been scrapped.
- The Commercial Courts, Commercial Division and Commercial Appellate Division of High Courts Act, 2015 have been passed while intra-government litigation has been reduced.
- The National Judicial Data Grid (NJDG) is being expanded under which every high court in the country will be digitized very soon. The same was recognized in the rankings by the World Bank.

GST data and the Indian Economy:

- The number of indirect taxpayers in the country witnessed growth of 50 per cent to 9.8 million unique GST registrants, as of December 2017.
- India's internal trade in goods and services (excluding non-GST goods and services) at 60 per cent is even higher than that estimated in last year's economic survey.

- The current GST tax base (excluding exports) is around 6.5 to 7 million, broadly similar to the estimates of Revenue Neutral Rate Committee and GST Council.
- Based on the average collections from GST, the implied weighted average collection rate (incidence) is 15.6 per cent. This is similar to the estimate of 15-16 per cent made by the RNR committee.
- Non-agricultural workforce in the formal sector in India is considerably greater than previously held beliefs about the size of formal sector non-farm payroll. Estimates, on the basis of enterprise-based definition of employment, imply that nearly 53 per cent of non-agricultural workforce is in the formal sector.

Changing face of Science, Research and Technology in India

- Public expenditure on R&D as a percentage of GDP has remained constant between 0.6-0.7 per cent over the past two decades; however, in value terms, the gross expenditure on R&D has increased at a CAGR of 13.03 per cent from Rs 24,117 crore (US\$ 3.8 billion) in 2004-05 to Rs 104,864 crore (US\$ 16.5 billion) in 2016-17.
- The number of students enrolled in PhD programs in India has increased over the years, with 126,451 PhD enrolments in 2015-16, backed by concerted efforts by the Government of India such as increase in the number and quantum of fellowships like the Prime Minister Research Fellowships at the IITs.
- The number of annual publications in India grew 14 per cent between 2009-14, which increased India's share in global publications from 3.1 per cent in 2009 to 4.4 per cent in 2014.
- India was ranked 13 in 2017 by Nature Index, which publishes tables based on counts of high-quality research outputs based on natural sciences in the previous year.
- As per WIPO, India's Patent Filing Office is the 7th largest in the world with 45,658 registered patents as of 2015.
- About 200,000 patents were pending for examination as there were only 132 patent examiners as of 2016-17; however, the government has hired 450 patent examiners and created an expedited filing system for Indian residents in 2017, which will improve the existing patent system.
- In order to encourage investigator-led research, the Science and Engineering research Board (SERB) was established in 2008, which has sanctioned nearly 3,500 new R&D projects to individual scientists so far.
- India can become a global leader outright in various areas with willingness to invest and focus on key areas. For this purpose, the government has chosen few missions for their strategic importance and potential for societal impact such as National Mission on Dark Matter, National Mission on Genomics, National Mission on Energy Storage Systems, National Mission on Mathematics, National Mission on Cyber Physical Systems, and National Mission on Agriculture.

FISCAL DEVELOPMENTS

The fiscal deficit for the first eight months of 2017-18 reached 112 percent of the total for the year, far above the 89 percent norm (average of last 5 years), largely because of a shortfall in non-tax revenue, reflecting reduced dividends from government agencies and enterprises. Expenditure also progressed at a fast pace, reflecting the advancing of the budget cycle by a month which gave considerable leeway to the spending agencies to plan in advance and start implementation early in the financial year. Partially offsetting these trends will be disinvestment receipts which are likely to exceed budget targets.

GST revenue collections are surprisingly robust given that these are early days of such a disruptive change. Government measures to curb black money and encourage tax formalization, including demonetization and the GST, have increased personal income tax collections substantially (excluding the securities transactions tax). From about 2 percent of GDP between 2013-14 and 2015-16, they are likely to rise to 2.3 percent of GDP in 2017-18, a historic high. Precise estimates of the government's contribution to this improvement vary depending on the methodology used. An econometric exercise yields an estimate of Rs. 40,000 crores over the two fiscal years of 2016-17 and 2017-18. Another based on comparing the difference in actual tax buoyancy in 2016-17 and 2017-18 over the previous seven-years' average buoyancy, yields an estimate of about Rs. 65,000 crores (both exclude the 25,000 crores collected under the Income Disclosure Scheme and Pradhan Mantri Garib Kalyaan Yojana). Thus, the sum of all government efforts increased income tax collections, thus far, between Rs. 65,000 and Rs. 90,000 crores. These numbers imply a substantial increase in reported incomes (and hence in formalization) of about 1.5 percent to 2.3 percent of GDP.

Another factor contributing to the rise in bond yields has been stepped-up Open Market Operations (OMO) by the RBI. This amounted to a net sale of about Rs. 90,000 crores during April-December 2017-18 (compared to a

net redemption of Rs. 1.1 lakh crores during the same period in 2016-17) to sterilize the impact of foreign flows, themselves induced by high interest rates.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world economy remains buoyant as today, growth could start recovering towards its medium term economic potential of at least 8 percent. Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private capex cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices require tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, re-instating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market "sudden stall" induced by sharp corrections to elevated stock prices. Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions. Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

INDIAN RAILWAYS

Introduction

The Indian Railways is among the world's largest rail networks. The Indian Railways route length network is spread over 115,000 km, with 12,617 passenger trains and 7,421 freight trains each day from 7,349 stations plying 23 million travellers and 3 million tonnes (MT) of freight daily. India's railway network is recognised as one of the largest railway systems in the world under single management.

The railway network is also ideal for long-distance travel and movement of bulk commodities, apart from being an energy efficient and economic mode of conveyance and transport.

The Government of India has focused on investing on railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.

Market size

During April-February 2017-18, the passenger traffic of Indian Railways reached 7.58 billion. The overall revenue of Indian Railways stood at US\$ 23.63 billion during April-February 2017-18. The passenger earnings grew to US\$ 6.8 billion and the freight earnings grew to US\$ 15.6 billion during the same period.

Investments/Developments

Foreign Direct Investment (FDI) inflows into Railways related components from April 2000 to December 2017 were US\$ 897.09 million.

Following are some of the major investments and developments in India's railways sector:

- A plan for redevelopment of Surat's railway station will soon be announced requiring a total expenditure of Rs 4,650 crore (US\$ 715.12 million).
- The Indian Railways is planning to invest around Rs 3,000 crore (US\$ 461.08 million) to convert 40 out of its 100 yards into smart yards and end manual inspections.

Government Initiatives

Few recent initiatives taken up by the Government are:

- The Government of India is going to come up with a 'National Rail Plan' which will enable the country to integrate its rail network with other modes of transport and develop a multi-modal transportation network.
- The Ministry of Railways, Government of India, has launched the Smart Freight Operation Optimisation & Real Time Information (SFOORTI) application to optimise freight operations and manage traffic flows.
- A 'New Online Vendor Registration System' has been launched by the Research Designs & Standards Organisation (RDSO), which is the research arm of Indian Railways, in order to have digital and transparent systems and procedures.
- Indian Railways is planning to standardise the number of coaches in trains to 22 or less which will lead to running of more trains, according to Mr Piyush Goyal, Minister of Railways.
- Indian Railways is targeting to increase its freight traffic to 3 billion tonnes by 2030 and have a 50 per cent share in overall goods movement.
- The Ministry of Railways is set to overhaul the US\$ 15.61 billion station redevelopment plan to increase the lease period for developers to 99 years, which is expected to give the real estate sector a boost.
- India's first National Rail and Transportation University which will be set up in Vadodara has been approved by the Union Cabinet, Government of India, to skill Indian railways' human resources and build capacity.

- The Government of India has signed an agreement with the Government of Japan under which Japan will help India in the implementation of the Mumbai-Ahmedabad high speed rail corridor along with a financial assistance that would cover 81 per cent of the total project cost.
- To enhance transparency in the processing and settlement of bills, Indian Railways has come up with a new bill tracking system for contractors/vendors of Indian Railways to track status of their bills.
- The cumulative savings of Indian Railways due to procurement of power under open access arrangements reached Rs 5,636 crore (US\$ 869.8 million) during April 2015 - October 2017 and are estimated to reach Rs 41,000 crore (US\$ 6.3 billion) by 2025.
- The Indian Railways has planned to phase out diesel locomotives over the next five years and replace them with electric ones, which will help them save about Rs 11,500 crore (US\$ 1.78 billion) yearly, stated Mr Piyush Goyal, Minister of Railways, Government of India.
- With the aim of boosting connectivity between India and Bangladesh, Mr Narendra Modi, Prime Minister of India, and Ms Sheikh Hasina, Prime Minister of Bangladesh, launched various connectivity projects including a new passenger train service between Kolkata and Khulna.
- To boost the industrial infrastructure of Chhattisgarh, the state government, in a joint venture with Indian Railways, has decided to build two fully electrified rail corridors worth Rs 10,000 crore (US\$ 1.54 billion).
- Indian Railways has put forward a global tender for obtaining 700,000 metric tonnes of railway track for improving track safety, as per Mr Piyush Goyal, Minister of Railways and Coal, Government of India.

Road Ahead

The Indian Railway network is growing at a healthy rate. In the next five years, the Indian railway market will be the third largest, accounting for 10 per cent of the global market. Indian Railways, which is one of the country's biggest employers, can generate one million jobs, according to Mr Piyush Goyal, Union Minister for Railways and Coal.

In order to develop three new arms of Dedicated Freight Corridor (DFC) in the various regions of the country, Indian government is planning to invest Rs 3,30,000 crores (\$50.98 billion). Also, Indian Railways is planning to invest in order to adopt European Train Control Systems (ETCS) which will help in the development of the infrastructural facilities.

Advantage of Railway Electrification

1. Energy Conservation through Railway Electrification:

Railway transport is far more energy efficient as compared to road transport. Railways are; a) Six times more energy efficient as compared to road, b) Four times more economical in land use c) Six times more cost effective vis-à-vis road in construction costs for comparable levels of traffic. Among the modes of rail transport, electric traction is the most energy efficient. This can be seen in the light of the fact that every 100 route kilometres electrified section results in saving of annual consumption of more than four million liters of diesel oil, which saves Rs. 2500 Crores worth foreign exchange annually.

2. Role of Electric Traction in Suburban Transport:

Electric Multiple Units (EMUs) are ideal for suburban services with higher acceleration and braking features required for frequent starts and stops. EMU services form the backbone of suburban transportation in the metropolitan cities of Mumbai, Kolkata and Chennai. In Mumbai area alone, about 1950 EMU trains are running daily on the suburban sections of Central and Western Railways which cater for about 5 million passengers every day.

Electrification has made possible the introduction of EMU services in many suburban like main line sections. These services have become extremely popular

3. Haulage of Heavier Freight Trains and Longer Passenger Trains under Electric Traction:

Electrification is making possible running of heavier freight trains. With the imported 6000 HP Thyristor locomotives, a consist of two of these locomotives, presently handles 4500 tonne trains in gradients upto 1 in 60 as against three numbers of 4000 HP earlier locomotives. Running of 9000 tonne trains is also possible with such locomotives, as has already been proved in tests conducted successfully in Ghaziabad - Mughal Sarai section.

With the introduction of electrification, 21 passenger coaches are hauled by a single locomotive in most of the sections. A single electric locomotive is now hauling Prayagraj Express with 24 coaches between New Delhi and Allahabad. Introduction of Shatabdi Express services operating at 130 KMPH under electric traction have been achieved purely through indigenous efforts of Indian Railways.

4. Benefits of clearer environment:

One of the major advantages of electric traction is pollution free atmosphere not only to the travellers but also to the surrounding environment. Electric traction is proven to be less pollutant than the existing diesel mode and thus could be eco-friendlier to an area having delicate flora and fauna. Electric traction could reduce noise and air pollution and result in lesser disturbance to wild life habitat of the region.

Technology Upgradation

Introduction of Railway Electrification has caused major impetus to Technology up-gradation on Indian Railways. Some of these are listed below:

a) Modernization of Equipment

With a view to bring down the maintenance cost and improve the reliability of power supply system, Railway Electrification has gone in for state-of-the-art technology as prevalent in the international arena viz., dry cast resin transformers, SF-6/Vacuum switch-gear, long creep age solid core insulators and PTFE neutral section. 8-wheeler self-propelled OHE inspection cars have also been introduced to improve maintenance. Action has also been initiated for procurement of OHE recording car for monitoring the performance of overhead equipment.

Signalling and telecommunication systems are also upgraded by adopting state-of-the-art technology. Semaphore signalling system is being replaced by colour light signalling system. Use of colour light signals results in better visibility of signaling aspects to the loco pilots of running trains and this makes train running safer and operationally efficient. Inter-locking system is also being changed to panel or route relay interlocking. Besides speedier movement of traffic, these up-gradation measures contribute towards increase in safety.

Underground cables are provided along with electrification, which results in more reliable and better quality of communication.

b) Supervisory Remote Control and Data Acquisition System (SCADA)

220 / 132 / 25 kV power supply network for electrification extending along the track over a zone of about 200/300 km is centrally controlled from the division control centre through remote control arrangements to ensure un-interrupted power supply to the track overhead equipment. In the present-day electrification projects, state-of-the-art microprocessor based supervisory control and data acquisition system (SCADA) is being provided as against the earlier electro-mechanical stronger system of remote control equipment. The SCADA system has facilities for tele-metering of voltage, current, maximum demand and power factor on a real time basis which enables control of maximum demand and thereby the charges thereof to be paid to the State Electricity Boards. In addition, this system provides for automatic trouble shooting and isolation of faulty section.

Indian railways have been progressively electrifying its rail routes to capitalize on these benefits.

Electrification – Pre Vs Post Independence

Railway electrification was being carried on very slowly during pre-independence period and was limited to only 388 Route Kilometres (RKMs). Majority of the electrification work has been done in the post-independence period. Moreover, electrification work took a major momentum in XII Five Year Plan, 2012-17, where 7785 RKMs were electrified against the target of 6500 RKMs. Comparing it with the previous Five-Year Plan, and we see there is an increase of more than 70% in electrification of RKMs.

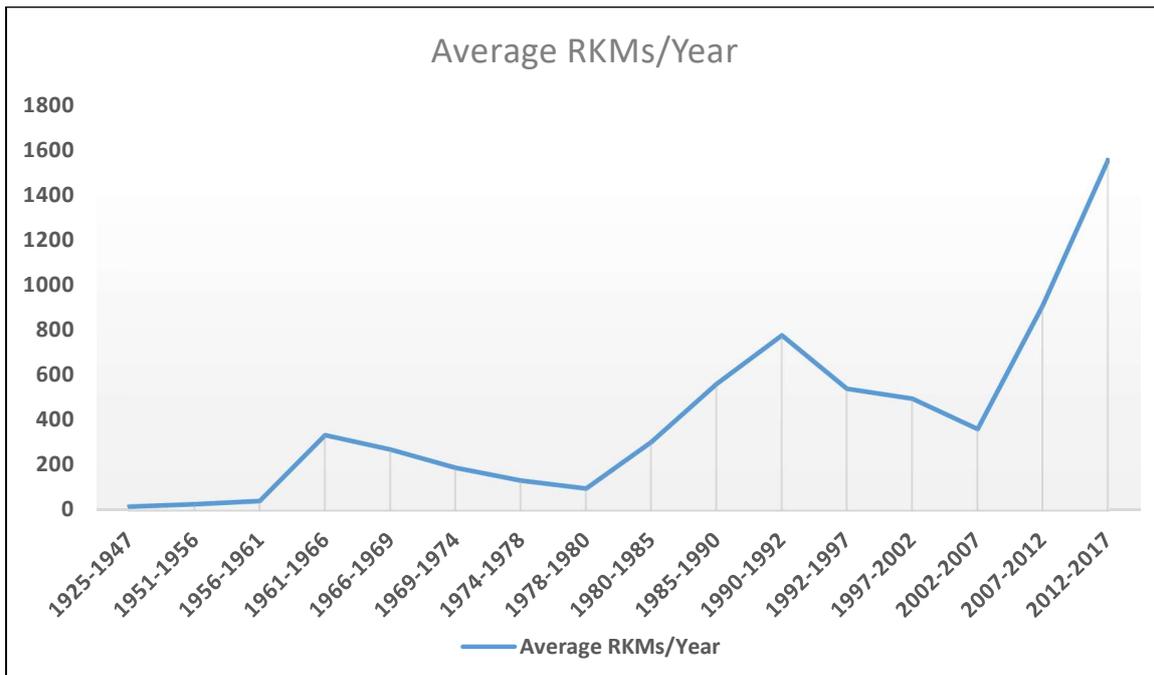

Electrification – Future Outlook

Going forward, Indian Railways have prepared an action plan for electrification of 90% of Broad Gauge Network by 2020-21. Railways has planned to electrify 24,400 RKMs between FY17 to FY21. A total of 25,367 RKMs has been electrified till March, 2017 which represents 37.65% of the total railway route kilometres network.

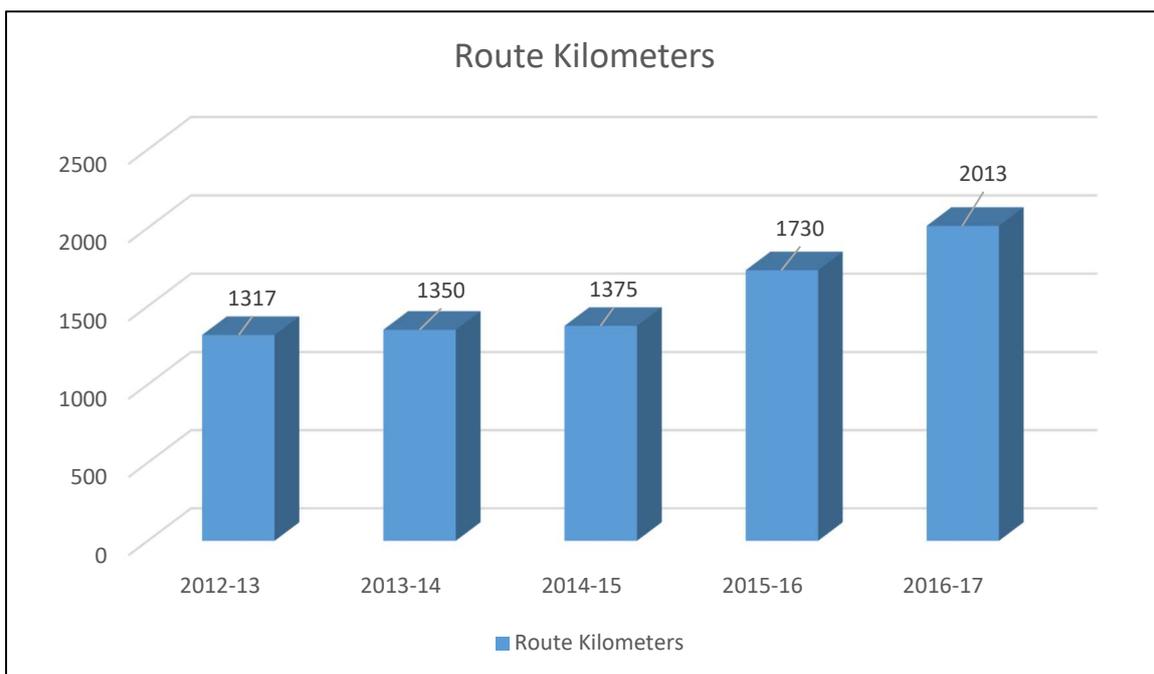

Period wise progress of RKMs Electrified

S.No.	Plan Period	RKMs Electrified
1.	1925 – 1947	388
2.	1947 – 1966	2035
3.	1966 – 1980	2496
4.	1980 – 1992	5891
5.	1992 – 2007	7002
6.	2007 – 2017	12341

Average Electrified RKMs/Year

Annual Railway Electrification

(Source: Indian Railways, Annual Report – 2017)

Electrification highlights

In the mission of complete electrification of railways, there has been a significant increase in electric locomotives from 5214 in FY-16 to 5399 in FY-17. Today more than 47% of total locomotives are electric in Indian Railways. There was an increase of 3.05% in total locomotives and 3.55% increase in electric locomotives in FY-17. In passenger transit electric engines run 709 km/day whereas their diesel counterpart runs only 598 km/day. In goods transit electric engines run 390 km/day whereas diesel engines run 377 km/day. This signifies the efficiency of electrification, where only 37.65% of the total tracks are electrified, there electric engines run 12.72% more than diesel engines. 65.10% of total freight traffic and 54.30% of total passenger

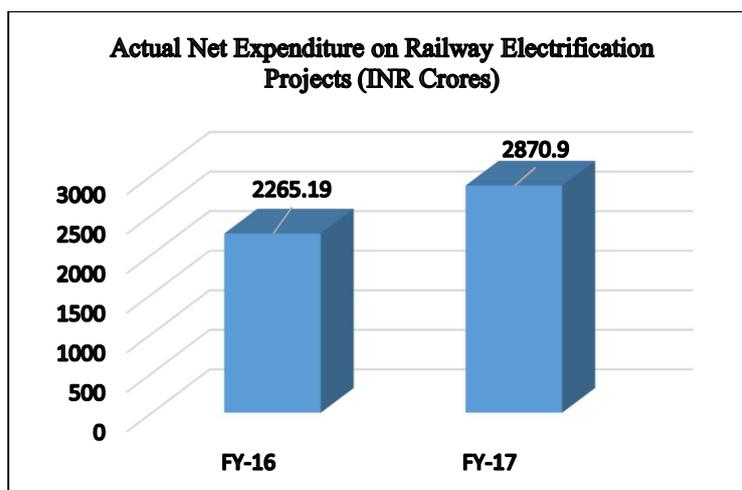

traffic is carried on the electrified route. A major advantage can be seen in fuel cost of electrified networks as it constitutes only 36.14% of the total traction fuel cost on Indian Railways.

When we compare the average speed of goods diesel engine and electric engine we see electric engines have an average speed of 24 km/hour compared to 23.3 km/hour of diesel engines.

In spite of massive electrification campaign in recent years there is still lot of potential left in electrification of railways. Out of a total 67,368 RKMs only 25,367 RKMs have been electrified. However, % age of electrified to total route kilometres has been increasing over the years, from 8.73% in 1980-81 to 37.65% in 2016-17.

Monetary Side of Electrification

In the FY-19 budget, a total of Rs.1.48 lakh crores were allocated to capital expenditure of railways. This was the highest allocation made to railways ever. During the last 5 years government has spent Rs.678 crores to Rs.1668 crores annually on railway electrification projects.

(Source: Indian Railways, Annual Report, 2017)

According to Indian Railway Minister, Mr. Piyush Goyal, Railways spend Rs.160 billion every year on diesel and moving to electricity will save it Rs. 80 – 100 billion every year.

Service Sector in India

Introduction

The services sector is not only the dominant sector in India’s GDP, but has also attracted significant foreign investment flows, contributed significantly to exports as well as provided large-scale employment. India’s services sector covers a wide variety of activities such as trade, hotel and restaurants, transport, storage and communication, financing, insurance, real estate, business services, community, social and personal services, and services associated with construction.

Market Size

The services sector is the key driver of India’s economic growth. The sector is estimated to contribute around 54.0 per cent of India’s Gross Value Added in 2017-18 and employed 28.6 per cent of the total population. India’s net services exports during reached US\$ 57.60 billion April-December 2017.

Nikkei India Services Purchasing Managers Index grew from 47.80 in February 2018 to 50.30 in March 2018, supported by growth in the growth in Information & Communications and Finance & Insurance.

As per Ministry of Statistics and Programme Implementation’s second advance estimates of National Income 2017-18, services sector GVA is expected to grow to US\$ 1,266.10 million in FY18.

BCPL Railway Infrastructure Limited

According to a report called ‘The India Opportunity’ by leading research firm Market Research Store, the Indian mobile services market is expected to reach \$37 billion in 2017 and grow by 10.3 per cent year-on-year to reach US\$ 103.9 billion by 2020.

Out of overall services sector, the sub-sector comprising financial services, real estate and professional services contributed US\$ 305.8 billion or 20.5 per cent to the GDP. The sub-sector of community, social and personal services contributed US\$ 188.2 billion or 12.6 per cent to the GDP.

Investments

The Indian services sector which includes financial, banking, insurance, non-financial/business, outsourcing, research and development, courier and technical test analysis, has attracted FDI equity inflows in the period April 2000-December 2017, amounting to about US\$ 64.10 billion according to the Department of Industrial Policy and Promotion (DIPP).

Some of the developments and major investments by companies in the services sector in the recent past are as follows:

- Private Equity (PE) investments in the hospitality industry rose nearly three-fold to US\$ 119 million in 2017 from US\$ 43.58 million in 2016. Hotel deals, including mergers and acquisitions, are expected to pick up further in 2018 as many premium hotel properties are up for sale.
- American fast food chain McDonalds is reopening 84 of its closed restaurants, increasing the total number of operational restaurants across north and east India to 169.
- National Skill Development Corporation has signed a tripartite Memorandum of Understanding (MoU) with Tourism and Hospitality Sector Skill Council (THSC) and Airbnb to impart hospitality skills training to hospitality micro-entrepreneurs in India.
- The domestic and foreign logistic companies are optimistic about prospects in the logistics sector in India and are actively making investments plans to improve earnings and streamline operations.

Government Initiatives

The Government of India recognises the importance of promoting growth in services sectors and provides several incentives in wide variety of sectors such as health care, tourism, education, engineering, communications, transportation, information technology, banking, finance, management, among others.

Prime Minister Narendra Modi has stated that India's priority will be to work towards trade facilitation agreement (TFA) for services, which is expected to help in the smooth movement of professionals.

The Government of India has adopted a few initiatives in the recent past. Some of these are as follows:

- Under the Mid-Term Review of Foreign Trade Policy (2015-20), the Central Government increased incentives provided under Services Exports from India Scheme (SEIS) by two per cent.
- Ministry of Communications, Government of India, has launched DARPAN - “Digital Advancement of Rural Post Office for A New India” which is aimed at improving the quality of services, adding value to services and achieving “financial inclusion” of un-banked rural population.
- Ministry of Civil Aviation, Government of India, launched 'Digi Yatra', a digital platform for air travellers that aims to develop a digital ecosystem providing consistent service and a delightful experience at every touch point of the journey.
- The Ministry of Electronics and Information Technology has launched a services portal, which aims to provide seamless access to government services related to education, health, electricity, water and local services, justice and law, pensions and benefits, through a single window.

Road Ahead

Services sector growth is governed by both domestic and global factors. The Indian facilities management market is expected to grow at 17 per cent CAGR between 2015 and 2020 and surpass the US\$19 billion mark supported by booming real estate, retail, and hospitality sectors. The performance of trade, hotels and

BCPL Railway Infrastructure Limited

restaurants, and transport, storage and communication sectors are expected to improve in FY17. The financing, insurance, real estate, and business services sectors are also expected to continue their good run in FY17.

The implementation of the Goods and Services Tax (GST) has created a common national market and reduced the overall tax burden on goods. It is expected to reduce costs in the long run on account of availability of GST input credit, which will result in the reduction in prices of services.

Indian Infrastructure Industry

Introduction

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development. In 2016, India jumped 19 places in World Bank's Logistics Performance Index (LPI) 2016, to rank 35th amongst 160 countries.

Market Size

Foreign Direct Investment (FDI) received in Construction Development sector (townships, housing, built up infrastructure and construction development projects) from April 2000 to December 2017 stood at US\$ 24.67 billion, according to the Department of Industrial Policy and Promotion (DIPP). The logistics sector in India is expected to increase at a Compound Annual Growth Rate (CAGR) of 10.5 per cent, from US\$ 160 billion in 2017 to US\$ 215 billion by 2020.

Investments

India has a requirement of investment worth Rs 50 trillion (US\$ 777.73 billion) in infrastructure by 2022 to have sustainable development in the country. India is witnessing significant interest from international investors in the infrastructure space. Some key investments in the sector are listed below.

- In February 2018, the Government of India signed a loan agreement worth US\$ 345 million with the New Development Bank (NDB) for the Rajasthan Water Sector Restructuring Project for desert areas.
- In January 2018, the National Investment and Infrastructure Fund (NIIF) partnered with UAE-based DP World to create a platform that will mobilise investments worth US\$ 3 billion into ports, terminals, transportation, and logistics businesses in India.

Government Initiatives

The Government of India is expected to invest highly in the infrastructure sector, mainly highways, renewable energy and urban transport, prior to the general elections in 2019.

The Government of India is taking every possible initiative to boost the infrastructure sector. Some of the steps taken in the recent past are being discussed hereafter.

- Announcements in Union Budget 2018-19:
 - Massive push to the infrastructure sector by allocating Rs 5.97 lakh crore (US\$ 92.22 billion) for the sector.
 - Railways received the highest ever budgetary allocation of Rs 1.48 trillion (US\$ 22.86 billion).
 - Rs 16,000 crore (US\$2.47 billion) towards Sahaj Bijli Har Ghar Yojana (Saubhagya) scheme. The scheme aims to achieve universal household electrification in the country.
 - Rs 4,200 crore (US\$ 648.75 billion) to increase capacity of Green Energy Corridor Project along with other wind and solar power projects.
 - Allocation of Rs 10,000 crore (US\$ 1.55 billion) to boost telecom infrastructure.

BCPL Railway Infrastructure Limited

- The 90 smart cities shortlisted by the Government of India have proposed projects with investments of Rs 191,155 crore (US\$ 30.02 billion) which include Projects Focusing on Revamping an Identified Area (Area Based Projects) with investment of Rs 152,500 crore (US\$ 23.95 billion).
- Contracts awarded under the Smart Cities Mission would show results by June 2018 as the work is already in full swing, according to Mr Hardeep Singh Puri, Minister of State (Independent Charge) for Housing and Urban Affairs, Government of India.
- The Government of India is working to ensure a good living habitat for the poor in the country and has launched new flagship urban missions like the Pradhan Mantri Awas Yojana (Urban), Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and Swachh Bharat Mission (Urban) under the urban habitat model, according to Mr Hardeep Singh Puri, Minister of State (Independent Charge) for Housing.

Road Ahead

India's national highway network is expected to cover 50,000 kilometers by 2019, with around 20,000 km of works scheduled for completion in the next couple of years, according to the Ministry of Road Transport and Highways.

The Government of India is devising a plan to provide Wi-Fi facility to 550,000 villages by March 2019 for an estimated cost of Rs 3,700 crore (US\$ 577.88 million), as per the Department of Telecommunications, Government of India.

India and Japan have joined hands for infrastructure development in India's north-eastern states and are also setting up an India-Japan Coordination Forum for Development of North East to undertake strategic infrastructure projects in the northeast.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward looking statements that involve risks and uncertainties. OVERVIEW

Our Company was originally incorporated as “Bapi Construction Electrical Engineering Private Limited” with the Registrar of Companies, West Bengal, on December 08, 1995, as a Private Limited Company. Subsequently, upon change of name of our company as “BCPL Railway Infrastructure Private Limited”, a fresh Certificate of Incorporation was issued by the Registrar of Companies, West Bengal, on July 31, 2008. Subsequently, upon conversion to a Public Limited Company, “BCPL Railway Infrastructure Limited”, a fresh Certificate of Incorporation bearing Corporate Identification Number U51109WB1995PLC075801 was issued by the Registrar of Companies, West Bengal, on August 05, 2008.

Incorporated in the year 1995, we are engaged in the field of Railway Infrastructure Development involving design, drawing, supply, Erection and Commissioning of 25KV, 50Hz Single Phase Traction Overhead Equipment. The key clients of our Company include various zones of the Indian Railways like Eastern Railway, South Eastern Railway, South East Central Railway, Northern Railway, East Coast Railway, North Frontier Railway, East Central Railway, Central Organisation For Railway Electrification (CORE) as well as large Public and Private Sector Undertakings like RITES Ltd., Durgapur Projects Ltd., Essel Mining Industries Ltd., Adhunik Group, Usha Martin Industries Ltd, Jindal Steel and Power Ltd., Rungta Mines, Haldia Energy Limited, Electrosteel and many more.

Our Company has kept its focus on the Electrification sector of the Railways keeping in view the vast scope of work in the existing and the untapped areas. As a result, our Company has been able to build its resources capable of executing large, medium and small electrification projects in the most efficient and timely manner.

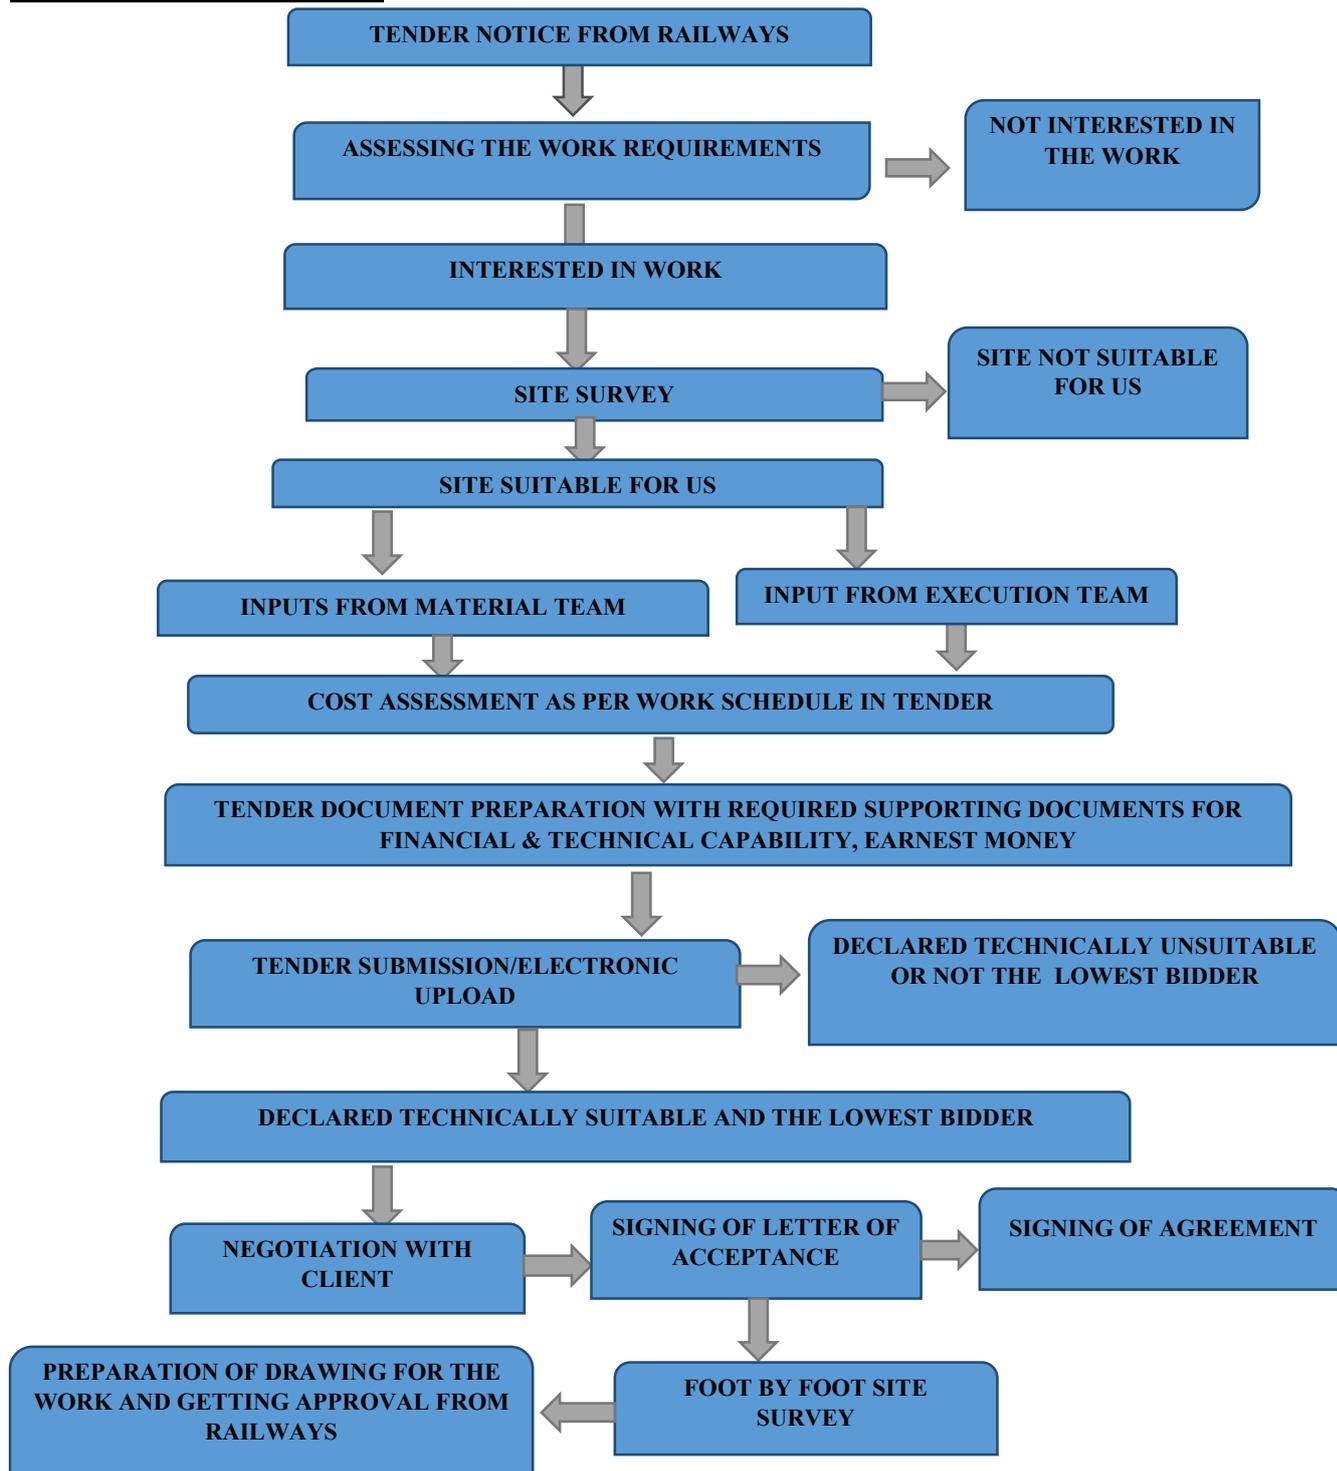

Our Company first made forays into a highly technical field, overhead electrification of the Indian Railways and through series of events over the successive years made rapid and spectacular progress in its chosen field of work and with dedication, team work, commitment, discipline and astute planning and strategy, scaled newer heights of progress and glory.

BCPL started its business as a CIVIL Contractor for the Indian Railways, after seeing the zeal and enthusiasm of four young entrepreneurs, the officers of Indian Railways suggested that they should help the railways in the electrification work. This was in the late of the 90’s when there were very few contractors in the electrification area and the Indian Railways had realized the importance of electrification of the railway routes. Railway electrification as a branch of railway infrastructure development is one of the most difficult branches since the work involves construction in remote areas through which the trains frequently pass. The work involves extreme levels of time and resource management since the work has to be undertaken in between the time intervals when there are no trains passing through the tracks. This is called “**TRAFFIC BLOCK**” in railway parlance.

Our Company was promoted by Mr. Aparesh Nandi, Mr. Jayanta Kumar Ghosh, Mr. Uday Narayan Singh and Mr. Kanhai Singh, who did not spare a second thought and immediately adhered to the advice of the senior officers and ventured into railway electrification. They have sound knowledge and experience in the industry in which we operate. Our Promoters have sound knowledge of finance, marketing, execution process and have the perception to understand the requirement of the clients. Our Promoters unique ideas and innovative solutions to various operational problems along with a hardworking team are the main strength of our company.

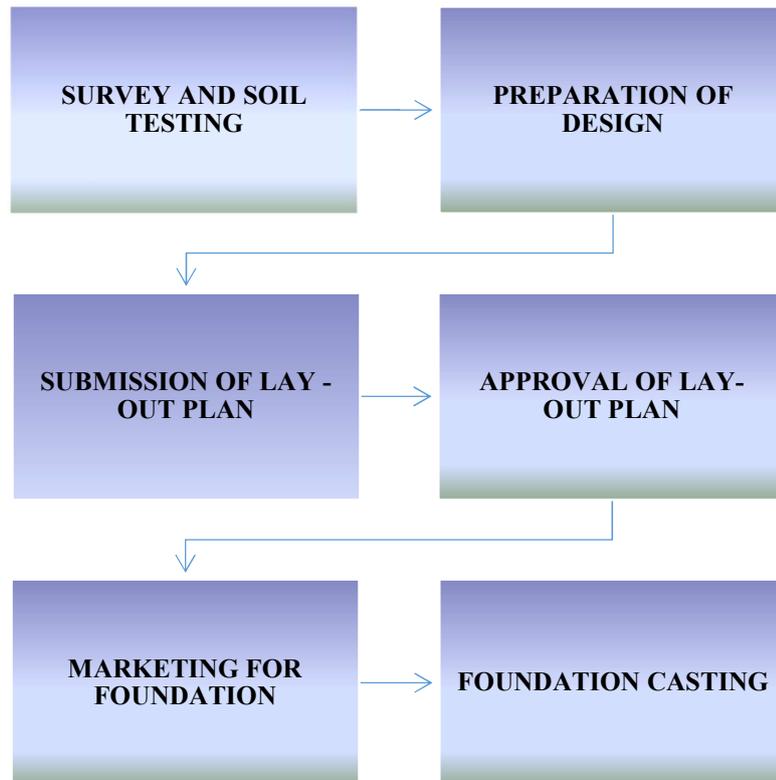

Our total revenues stood at ₹ 5,063.59 Lakhs for the fiscal year ended on March 31, 2018, ₹ 3,498.76 Lakhs for the fiscal year ended on March 31, 2017 and ₹ 2,573.92 Lakhs For the fiscal year ended on March 31, 2016 respectively. Further, our PAT for the fiscal year ended on March 31, 2018 was ₹ 404.55 Lakhs on March 31, 2017 was ₹ 127.21 Lakhs and on March 31, 2016 was ₹ 96.12 Lakhs.

OUR COMPETITIVE STRENGTHS

1. Experience

We have successfully executed several large projects for railway electrification in the last two decades throughout the length and breadth of the country with particular thrust on the eastern, northern, coastal and the central parts and in the process earned the Goodwill and confidence of the clients. Our Company is a leading Railway Overhead Electrification (OHE) service provider for eastern, south eastern, east coast railway and northern railway and large corporates in the Orissa, Jharkhand and Chhattisgarh.

2. Experienced Promoters and Management

We have an experienced management team including our promoters who have more than two decades of experience in the Railway Overhead Electrification (OHE). Further to this they are assisted by an experienced, committed and loyal management team comprising professionals having a sound and adequate knowledge of technical, finance and administration activities in the Railway OHE Sector. We also have a panel of industry experts acting as advisors for efficiently organizing and managing project work.

3. Engaged in an Industry of paramount national importance and undisputed growth potential

Electrified railway lines are the most cost efficient and pollution free means of railway transportation. Our Company has over the years mastered the skills of providing the basic infrastructure for operating the electrified railway routes. Besides keeping in view, the rising crude oil prices and international concerns on global warming due to the pollution emanating from the smoke coming out of diesel locomotives. The Country's dependence on the diesel locomotives has to be reduced at the earliest. As our company is providing the highly skilled service of developing the basic transmission lines from where the electric locomotives draw the energy. It goes without saying that its growth potential is undisputed and unparalleled in light of the fact that more than 50% of the railway routes are still non-electrified in order to improve the situation and to make 100% of the Railway Routes Electrified. The Indian Government through the Ministry of Railways has made concrete plans to complete the task of 100% electrifications in existing routes in the next 5 years. After electrification of existing routes, railways are planning to add new routes to the network, which would create more opportunities for our company.

4. Exemplary Track Record in Execution of the Projects

In the past the projects undertaken by our company were completed in the allotted time to the fullest satisfaction of the clients in terms of Quality. Further our Company has the distinction of being awarded with a citation from the central organization of railway electrification. Allahabad for completing a project in a record period of eight months, however the allotted completion schedule was twelve months. During the last two decades there has not been a single instance where our company has been charged for failure to complete the projects in time because of deficiency in service.

5. Satisfied Chain of Vendors

Our Company has to procure its raw materials like masts, copper wire, insulators, isolators, transformers, tubes and other allied OHE fittings from various approved vendors. Over the years our company has been able to develop extremely cordial relationships with the vendors who have always stood by our company in times of need. Our Company on its part has always tried to be punctual and transparent in keeping its commitment towards its vendors.

VISION AND MISSION

A rare combination of young and energetic people with new ideas, and older staff members with years of construction experience forms the foundation of the visionary ideals of BCPL Railway Infrastructure Ltd.

- It strives to identify market trends and customer requirements to create the Ideal product. It aims to treat every one of our customers equally.
- Our company visualizes to broaden its horizon and fulfil its commitment in the electrification sector of the Railways by maintaining a stringent and meticulous focus on quality.
- Our company aims at placing itself at the apex of the industry by providing products that showcase creativity and uniqueness in every single piece.

Our Company believes that an unbridled passion for excellence and innovation will help it to have a centre stage in the railway electrification sector in the existing and the untapped areas. With a single-minded mission our company wishes to provide complete electrification solutions and nurturing long-lasting relationships of trust with clients. Our Company visualizes to achieve its objectives in an environment of fairness and courtesy to its clients, employees, vendors, investors and society.

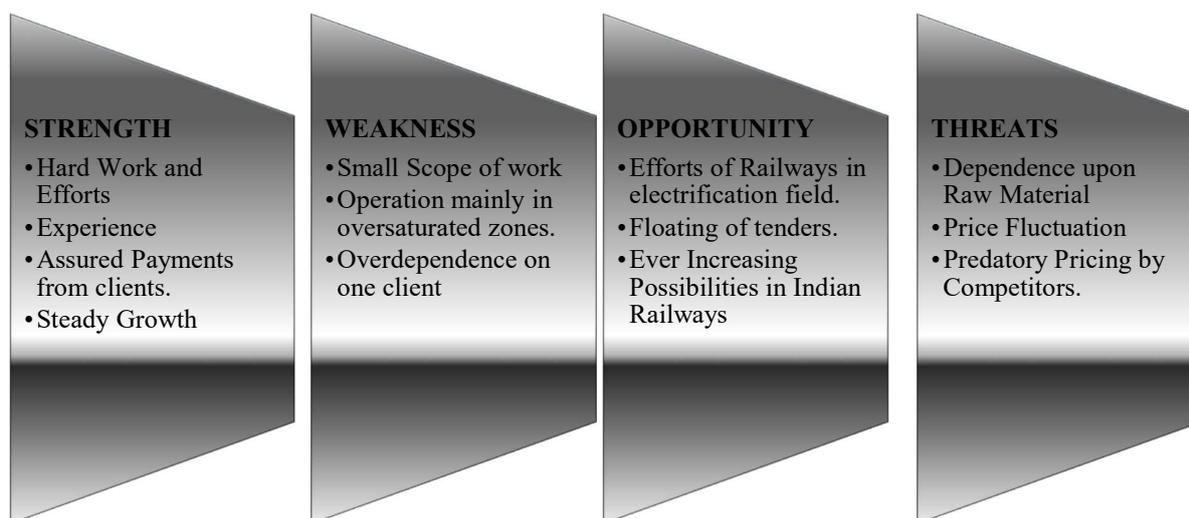

BUSINESS STRATEGIES

- The major objective of our Company is to maintain the highest quality standards in its works, in order to compete successfully with the behemoths of the construction industry. Accordingly, importance is given to maintenance of quality in execution with the help of our experienced and well-trained work force posted at all levels of project delivery. Various layers of checks and balances are in place to ensure that no compromise takes place with regard to quality.
- Our Company has robust systems of cost recording as well as methods of estimating the cost to complete a project at any stage of its execution cycle. This ensures that our Company remains financially competitive. Also, the material purchases and supplies are carefully monitored to ensure low inventory.
- Entrepreneurship in simple words can be defined as “**ZEAL TO ACHIEVE WHAT ONE PLANS TO ACHIEVE**”. Personnel in high positions are selected on the basis of their entrepreneurship qualities. Thereafter, they are motivated to lead their team to achieve predetermined targets set by them.
- Our employees are encouraged to take calculated risks within the precincts of our company’s Corporate Governance Standards. In other words, the employees are allowed to take decisions if they feel that the same would be approved by the board keeping in mind the corporate philosophy. By this employee are able to execute the tasks at their hands in faster and efficient manner. Similar working styles may be adopted by the officers for serving and by doing so they can also achieve remarkable results.
- There is a strong adherence to maintaining excellent relationship with the customers both in the public as well as the private sector. In addition, constant communication is maintained with clients for updating them with progress status, likely bottlenecks and other relevant issues.

- We feel that “Our Best Teacher is Our Last Mistake”. This helped us to remove fear of taking decisions provided. The decision is taken in the right perspective and with a proper ground work.
- We always encourage our employees to endeavour to keep the thinking process simple to that the sense of fear can be avoided in case of difficult tasks. This policy has helped us to undertake extreme difficult tasks keeping the moral and confidence of our employees intact.

SWOT ANALYSIS

INDUSTRY SPECIFIC REGULATIONS

Electricity Act, 2003 read with Indian Electricity Rules, 1956 and Regulations made thereunder

The Electricity Act, 2003 read with the Electricity Rules, 1956 consolidates the laws relating to generation, transmission, distribution, trading and use of electricity and generally for taking measures conducive to development of electricity industry, promoting competition therein, protecting interest of consumers and supply of electricity to all areas, rationalization of electricity tariff, ensuring transparent policies regarding subsidies, promotion of efficient and environmentally benign policies, constitution of Central Electricity Authority, Regulatory Commissions and establishment of Appellate Tribunal and for matters connected therewith or incidental thereto. As per the Electricity Act, "electrical plant" means any plant, equipment, apparatus or appliance or any part thereof used for, or connected with, the generation, transmission, distribution or supply of electricity. However, it does not include the following:

- a) an electric line; or
- (b) a meter used for ascertaining the quantity of electricity supplied to any premises; or
- (c) an electrical equipment, apparatus or appliance under the control of a consumer.

The Electricity Act envisages the establishment of Central Electricity Authority (the “Authority”) for the purposes of inter-alia advising the Central Government on the matters relating to the national electricity policy, formulating short-term and perspective plans for development of the electricity system and co-ordinating the activities of the planning agencies for the optimal utilisation of resources to serve the interests of the national economy and to provide reliable and affordable electricity for all consumers. Further, the Electricity Act bars the member of the Authority to have any share or interest, whether in his own name or otherwise, in any company or other body corporate or an association of persons (whether incorporated or not), or a firm engaged in the business of generation, transmission, distribution and trading of electricity or fuel for the generation thereof or in the manufacture of electrical equipment.

Central Electricity Authority (Technical Standards for Construction of Electrical Plants and Electric Lines) Regulations, 2010, as amended (“Technical Standards Regulations”)

The Technical Standards Regulations lays down the technical standards and designs for construction of electric plants and lines. The Technical Standards Regulations also provides the general requirement for various parts or components or assemblies of equipment and systems which shall have proven materials with well-established physical and chemical properties appropriate to the service as intended. Further, it lays down the requirement that all equipment and systems installed shall comply with the provisions of statutes, regulations and safety codes, as applicable and also the design, construction and testing of all equipment, facilities, components and systems shall be in accordance with latest version of relevant standards and codes issued by Bureau of Indian Standards (BIS) and/or reputed international standards. The Technical Standards Regulations provides for the requirement that all materials, components and equipment shall be tested at all stages of procurement, manufacturing, erection, commissioning as per comprehensive quality assurance programme to be agreed mutually, between the Owner and the equipment supplier.

Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 (the “Safety and Electric Supply Regulations”)

The Safety and Electric Supply Regulations lays down regulations for safety requirements for electric supply lines and accessories (meters, switchgears, switches and cables). It requires all relevant specifications prescribed by the BIS or the International Electro-Technical Commission to be adhered to. The Safety and Electric Supply Regulations also requires the installation, working and maintenance of supply lines in such a method which will ensure safety of human beings, animals and property. Also, it provides for all electric supply lines and accessories to:

- have adequate power ratings and proper insulation;
- be of adequate mechanical strength for the duty cycle;
- have a switchgear installation in each conductor of every service line within a consumer's premises; and
- be encased in a fireproof receptacle.

Steel and Steel Products (Quality Control) Order, 2018 (“Quality Control Order”)

The Quality Control Order was notified by Ministry of Steel and published in Official Gazette of India on February 16, 2018 in supersession of the earlier issued Steel and Steel Products (Quality Control) Order, 2012 and its amendments thereto. The Quality Control Order provides that every steel and steel product shall bear a standard mark under the license given by Bureau of Indian Standards. Also, the BIS shall be the certifying and enforcing authority in respect of steel and steel products. Further, the Quality Control Order provides schedule of Indian Standards to be followed with respect to various steel and steel products.

Bureau of Indian Standards Act, 2016 (the “BIS Act”)

The BIS Act provides for the establishment of the Bureau of Indian Standards (“BIS”) for the development of activities of standardization, conformity assessment and quality certification of goods, articles, processes, systems and services. The BIS Act provides for the functions of the BIS which includes, among others (a) publish, establish and promote Indian standards; (b) specify as Indian standard, any standard, established by any other institution in India or elsewhere, in relation to article or process; (c) undertake research for formulation of Indian standards. The BIS Act empowers the Central Government to order compulsory use of standard mark for any goods or article if it finds it expedient to do so in public interest. The BIS Act also provides the penalties in case there is a contravention of the provisions of the BIS Act.

General Conditions of Contract under Indian Railways, 2014 (“GCC”)

Indian Railways have introduced General Conditions of Contracts (GCC) for Services to define the terms & conditions for the Contractor setting out the conditions for careful examination of nature of the work, location of the work, the conformation of the ground, the character, quality and quantity of the materials to be encountered, the character of equipment and facilities needed preliminary to and during the progress of the works, the general and local conditions, the labour conditions prevailing therein and all other matters which can in any way affect the works under the contract.

The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner.

Indian Stamp (West Bengal Amendment) Act, 1972(the “Stamp Act”)

The purpose of the Stamp Act was to streamline and simplify transactions of immovable properties and securities by the State government. The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule I of the Stamp Act. Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the state.

West Bengal Fire Services Act, 1950

The West Bengal Fire Services Act, 1950 was enacted in the year 1950. The Act requires the owner or occupier of any building of any or all categories to make or carry out such arrangements as may be necessary for fire prevention and fire safety in that area. Further, the Act also provides for the punishment to any person or agency which causes obstruction of fire brigade to draw water for fire-fighting purposes from any reservoir or source located in any premises.

ENVIRONMENTAL LAWS

National Environmental Policy, 2006

The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

Environment (Protection) Act, 1986 as amended (“EPA”)

EPA provides for the prevention, control and abatement of pollution. Pollution control boards have been constituted in all states in India to exercise the powers and perform the functions provided for under these statutes for the purpose of preventing and controlling pollution. Companies are required to obtain consents of the relevant state pollution control boards for emissions and discharge of effluents into the environment.

Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 as amended (“Hazardous Wastes Rules”)

The Hazardous Wastes Rules impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes in a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and destruction of hazardous waste is required to obtain an authorization from the relevant state pollution control board for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste. The Environmental Impact Assessment Notification dated September 14, 2006 read with notifications dated October 11, 2007, December 1, 2009, April 4, 2011 and January 25, 2012, issued under the Environment Protection Act and the Environment (Protection) Rules, 1986, requires prior environmental clearance of the Ministry.

Noise Pollution (Regulation & Control) Rules 2000 (“Noise Regulation Rules”)

Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the Provisions of the Environment (Protection) Act, 1986.

Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”)

The Water Act was enacted in 1974 in order to provide for the prevention and control of water pollution by factories and manufacturing industries and for maintaining or restoring the wholesomeness of water. In respect to an Industrial Undertaking it applies to the (i) Occupier (the owner and management of the undertaking) (ii) Outlet (iii) Pollution and (iv) Trade effluents. The Act requires that approvals be obtained from the corresponding Pollution Control Boards in the state.

Water (Prevention and Control of Pollution) Cess Act, 1971

The Water (Prevention and Control of Pollution) Cess Act, 1971 provides for the levy and collection of a cess on water consumed by persons carrying on certain industries and by local authorities, with a view to augment the resources of the Central Board and the State Boards for the prevention and control of water pollution constituted under the Water (Prevention and Control of Pollution) Act, 1974.

Air (Prevention and Control of Pollution) Act, 1981, as amended (the “Air Act”)

With a view to ensuring that the standards for emission of air pollutants are complied with, the State Government shall, in consultation with the State Board, give such instructions as may be deemed necessary to the concerned authority and such authority shall, notwithstanding anything contained in that Act or the rules made thereunder be bound to comply with such instructions.

Guidelines for in-use Generator sets (Noise and Emissions)

TAX RELATED LEGISLATIONS

Income-Tax Act, 1961 (the “IT Act”) and Rules made thereunder

IT Act is applicable to every Company, whether domestic or foreign whose income is taxable under the provisions of the IT Act or Rules made thereunder depending upon its Residential Status and Type of Income involved. The IT Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every Company assessable to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its returns by September 30 of each assessment year.

Central Goods and Services Tax Act, 2017 (the “GST Act”)

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combine the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST will be levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India will adopt a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state will be levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

BCPL Railway Infrastructure Limited

Customs Act, 1962 (the “Customs Act”)

The Customs Act governs among other things, the import and export of goods, determination of rate of duty, tariff valuation, the manner of payment to authorities, and loading and unloading of goods. Penalties are prescribed for non-compliance with statutory provisions.

Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed Rs. 2 million.

The Minimum Wages Act, 1948 read with the Minimum Wages (Central) Rules, 1950 (“MWA”)

The Minimum Wages Act, 1948 came into force with an objective to provide for the fixation of a minimum wage payable by the employer to the employee. Every employer is mandated to pay the minimum wages to all employees engaged to do any work skilled, unskilled, and manual or clerical (including out-workers) in any employment listed in the schedule to the MWA Act. The Central Government notified rules to MWA in 1950 which in addition to providing the conditions of payment of wages etc. provides for appointment of advisory committee and the regulations governing the working of such committee.

The Public Liability Insurance Act, 1991 (“PLI Act”)

The “PLI Act” provides for public liability insurance for the purpose of providing immediate relief to persons affected by accident occurring while handling any hazardous substance and for matters connected therewith or incidental thereto. Every owner (in the case of a company, any of its directors, managers, secretaries or other officers who is directly in charge of and is responsible to the company for the conduct of the business of the company) is obligated to take out, before he starts handling any hazardous substance, one or more insurance policies providing for contracts of insurance thereby he is insured against liability to give relief under the PLI Act. The said insurance policy shall be for a minimum amount of the paid-up capital of the Company and not exceeding fifty crore rupees.

The Industrial (Development and Regulation) Act, 1951 (“IDRA”)

The IDRA has been liberalized under the New Industrial Policy dated July 24, 1991, and all industrial undertakings are exempt from licensing except for certain industries such as distillation and brewing of alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defence equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking which is exempt from licensing is required to file an Industrial Entrepreneurs Memorandum (“IEM”) with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

The Industrial Disputes Act, 1947 (“ID Act”)

The ID Act provides the procedure for investigation and settlement of industrial disputes. When a dispute exists or is apprehended, the appropriate Government may refer the dispute to a labour court, tribunal or arbitrator, to prevent the occurrence or continuance of the dispute, or a strike or lock-out while a proceeding is pending. The labour courts and tribunals may grant appropriate relief including ordering modification of contracts of employment or reinstatement of workmen. Government of Gujarat has notified the Industrial Disputes (Gujarat Amendment) Act, 2004 which came into force from February 10, 2004, for its application to the state of Gujarat.

Payment of Bonus Act, 1965 (“POB Act”)

The POB Act provides for payment of minimum bonus to factory employees and every other establishment in which 20 or more persons are employed and requires maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due.

Child Labour (Prohibition and Regulation) Act, 1986 and rules made thereunder (“CLPRA”)

CLPRA and rules made thereunder prohibit employment of children below 14 years of age in certain occupations and processes and provide for regulation of employment of children in all other occupations and processes. Under this Act the employment of child labour in the building and construction industry is prohibited.

Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)

The “SHWW Act” provides for the protection of women and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e. a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000.

Equal Remuneration Act, 1976 (“ER Act”)

The “ER Act” provides for the payment of equal remuneration to men and women workers for same work or work of a similar nature and for the prevention of discrimination, on the ground of sex, against women in the matter of employment. According to the Equal Remuneration Act, the term remuneration means the basic wage or salary and any additional emoluments whatsoever payable, either in cash or in kind, to a person employed in respect of employment or work done in such employment, if the terms of the contract of employment, express or implied, are fulfilled.

Contract Labour (Regulation and Abolition) Act, 1970 (“CLRA”) read with Contract Labour (Regulation and Abolition) Central Rules, 1971

The Contract Labour (Regulation and Abolition) Act, 1970 (“CLRA”) has been enacted to regulate the employment of contract labour in certain establishments, the regulation of their conditions and terms of service and to provide for its abolition in certain circumstances. The CLRA applies to every establishment in which 20 or more workmen are employed or were employed on any day of the preceding 12 months as contract labour. The CLRA vests the responsibility on the principal employer of an establishment to which the CLRA applies to make an application to the registered officer in the prescribed manner for registration of the establishment. In the absence of registration, a contract labour cannot be employed in the establishment. Likewise, every contractor to whom the CLRA applies is required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. To ensure the welfare and health of the contract labour, the CLRA imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA.

Workmen’s Compensation Act, 1923 (“WCA”)

The “WCA” has been enacted with the objective to provide for the payment of compensation to workmen by employers for injuries by accident arising out of and in the course of employment, and for occupational diseases resulting in death or disablement. The WCA makes every employer liable to pay compensation in accordance with the WCA if a personal injury/disablement/loss of life is caused to a workman (including those employed through a contractor) by accident arising out of and in the course of his employment. In case the employer fails to pay compensation due under the WCA within one month from the date it falls due, the commissioner

BCPL Railway Infrastructure Limited

appointed under the WCA may direct the employer to pay the compensation amount along with interest and may also impose a penalty.

Maternity Benefit Act, 1961 (“Maternity Act”)

The purpose of “Maternity Act” is to regulate the employment of pregnant women and to ensure that they get paid leave for a specified period during and after their pregnancy. It provides inter-alia for payment of maternity benefits, medical bonus and enacts prohibition on dismissal, reduction of wages paid to pregnant women etc.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

You should read the following discussion of our financial condition and results of operations together with our Restated Financial Statements which is included in this Draft Prospectus. The following discussion and analysis of our financial condition and results of operations is based on our Restated Financial Statements, as restated for the years ended March 31, 2018, 2017, 2016, 2015 and 2014 including the related notes and reports, included in this Draft Prospectus is prepared in accordance with requirements of the Companies Act and restated in accordance with the SEBI Regulations, which differ in certain material respects from IFRS, U.S. GAAP and GAAP in other countries. Our Financial Statements, as restated have been derived from our audited statutory financial statements. Accordingly, the degree to which our Restated Financial Statements will provide meaningful information to a prospective investor in countries other than India is entirely dependent on the reader's level of familiarity with Indian GAAP, Companies Act, SEBI Regulations and other relevant accounting practices in India.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those described under sections titled "Risk Factors" and "Forward Looking Statements" beginning on pages 14 and 13 respectively of this Draft Prospectus.

Our FY ends on March 31 of each year. Accordingly, all references to a particular FY are to the 12 months ended March 31 of that year.

Business Overview

Our Company was incorporated as "Bapi Construction Electrical Engineering Private Limited" with the Registrar of Companies, West Bengal, on December 08, 1995, as a Private Limited Company. Subsequently, upon change of name of our company as "BCPL Railway Infrastructure Private Limited", a fresh Certificate of Incorporation was issued by the Registrar of Companies, West Bengal, on July 31, 2008. Subsequently, upon conversion to a Public Limited Company, "BCPL Infrastructure Limited", a fresh Certificate of Incorporation bearing Corporate Identification Number U51109WB1995PLC075801 was issued by the Registrar of Companies, West Bengal, on August 05, 2008.

Incorporated in the year 1995, we are engaged in the field of Railway Infrastructure Development involving design, drawing, supply, Erection and Commissioning of 25KV, 50Hz Single Phase Traction Overhead Equipment. The key clients of our Company include various zones of the Indian Railways like Eastern Railway, South Eastern Railway, South East Central Railway, Northern Railway, East Coast Railway, North Frontier Railway, East Central Railway, Central Organisation For Railway Electrification (CORE) as well as large Public and Private Sector Undertakings like RITES Ltd., Durgapur Projects Ltd., Essel Mining Industries Ltd., Adhunik Group, Usha Martin Industries Ltd, Jindal Steel and Power Ltd., Rungta Mines, Haldia Energy Limited, Electrosteel and many more.

Our Company has kept its focus on the Electrification sector of the Railways keeping in view the vast scope of work in the existing and the untapped areas. As a result, our Company has been able to build its resources capable of executing large, medium and small electrification projects in the most efficient and timely manner.

Our Company first made forays into a highly technical field, overhead electrification of the Indian Railways and through series of events over the successive years made rapid and spectacular progress in its chosen field of work and with dedication, team work, commitment, discipline and astute planning and strategy, scaled newer heights of progress and glory.

BCPL started its business as a CIVIL Contractor for the Indian Railways, after seeing the zeal and enthusiasm of four young entrepreneurs, the officers of Indian Railways suggested that they should help the railways in the electrification work. This was in the middle of the 90's when there were very few contractors in the electrification area and the Indian Railways had realized the importance of electrification of the railway routes. Railway electrification as a branch of railway infrastructure development is one of the most difficult branches since the work involves construction in remote areas through which the train constantly pass. The work involves extreme levels of time and resource management since the work has to be undertaken in between the time

intervals when there are no trains passing through the tracks. This is called “**TRAFFIC BLOCK**” in railway parlance.

Our Company is promoted by Mr. Aparesh Nandi, Mr. Jayanta Kumar Ghosh, Mr. Uday Narayan Singh and Mr. Kanhai Singh, who did not spare a second thought and immediately adhered to the advice of the senior officers and ventured into railway electrification. They have sound knowledge and experience in the industry in which we operate. Our Promoters have sound knowledge of finance, marketing, execution process and having the power to understand the requirement of the clients. Our Promoters unique ideas and innovative solutions to various operational problems along with a hardworking team are the main strength of our company.

Significant developments subsequent to the last financial year

In the opinion of the Board of Directors of our Company, since the date of the last financial statements disclosed in this Draft Prospectus, there have not arisen any circumstance that materially or adversely affect or are likely to affect the profitability of our Company or the value of its assets or its ability to pay its material liabilities within the next twelve months.

Factors affecting our results of operations

Our Company’s future results of operations could be affected potentially by the following factors:

- Company’s ability to successfully implement our growth strategy;
- Changes in technology;
- Political Stability of the Country;
- Investment Flow in the country from the other countries;
- Competition from other players;

Financial Market Risks

We are exposed to financial market risks from changes in borrowing costs, interest rates and inflation.

Interest Rate Risk

As on today we do have any interest-bearing borrowing from any Bank/Financial Institutions/persons and any rise in future borrowings may increase the risk.

Effect of Inflation

We are affected by inflation as it has an impact on the operating cost, staff costs etc. In line with changing inflation rates, we rework our margins so as to absorb the inflationary impact.

FACTORS THAT MAY AFFECT THE RESULTS OF THE OPERATIONS:

1. Unusual or infrequent events or transactions

There are no transactions or events, which in our best judgement, would be considered unusual or infrequent that have significantly affected operations of the Company.

2. Significant economic changes that materially affected or are likely to affect income from continuing operations

There are no significant economic changes that materially affected Company's operations or are likely to affect income from continuing operations. Any slowdown in the growth of Indian economy or future volatility in global commodity prices, could affect the business including the future financial performance, shareholders' funds and ability to implement strategy and the price of the Equity Shares.

3. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations

Other than as disclosed in the section titled "*Risk Factors*" beginning on page 14 of this Draft Prospectus to our knowledge, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

4. Future changes in relationship between costs and revenues in case of events such as future increase in labour or material cost or prices that will cause material change

According to our knowledge, there are no future relationship between cost and income that would be expected to have a material adverse impact on our operations and revenues. However, increase in the cost of the goods in which the Company deals, will affect the profitability of the Company. Further, the Company may not be able to pass on the increase in prices of the services to the customers in full and this can be offset through cost reduction.

5. The extent to which material increases in net sales or revenue are due to increased sales volume, introduction of new products or services or increased prices

The increase in revenue is by and large linked to increase in volume of all the activities carried out by the Company.

6. Total turnover of each major industry segment in which the issuer company operates

Our Company is primarily engaged in manufacturing and trading of large range of agricultural equipments and in hospitality services. Relevant industry data, as available, has been included in the section titled "*Our Industry*" beginning on page 82 of this Draft Prospectus.

7. The extent to which business is seasonal

Our Company's business is not seasonal. However, the business of the company depends upon the Growth potential of the economy and growth of the country.

8. Any significant dependence on a single or few suppliers or customers

The % of Contribution of our Company's customer and supplier vis-a-vis the total revenue from operations and purchase respectively as on March 31, 2018 is as follows:

	Customers	Suppliers
Top 5 (%)	80.66%	84.68%
Top 10 (%)	97.66%	98.94%

9. Competitive conditions

Competitive conditions are as described under the section titled "*Our Business*" beginning on page no. 99 of this Draft Prospectus.

For the period 2012-13 to 2016-17

A show cause cum demand notice numbering DGCEI F.No. 221/KZU/KOI/GrH/Rail/16/9054 dated October 18, 2017 was issued by Joint Director, Directorate General of Goods and Services Tax Intelligence, Kokata Zonal Unit. The Company provided its services to Government Railways and also provided service to private parties and also acted as sub-contractor for different joint venture companies which does not come under the ambit of 'railways' and therefore not eligible for exemption under service tax and thereby demanding an amount of ₹1,62,83,256 (₹15651909 for service tax, ₹122554 for education cess, ₹61,277 for SHE cess, ₹2,82,471 for swachha bharaat cess and ₹1,65,045 for krishi kalyan cess). Aggrieved by the said demand cum show cause notice the Company filed its response dated December 25, 2017 to Additional/Joint Commissioner of Central Tax, stating that the word 'railways' has not been defined in the context of service tax and should be read and understood as a general term and that the works for railways will be covered under the definition of 'railways' for exemption and thereby requesting that the demand of ₹1,62,83,256 along with penalty and interest be dropped. Currently the said matter is pending before the authorities for disposal.

Sales Tax

1. For the period 2014-15

An *ex-parte* assessment order dated March 30, 2018 has been passed against the Company for sales of electrical goods raising a demand of ₹ 40,45,508. As per the said order a notice dated March 12, 2018

was issued to the Company to produce the books of accounts for sale and purchase of such electrical goods, where after an ex-parte order was passed against the Company after adjusting the amount already paid in regular assessment. The Company has filed an application before the assessing authority to set aside the *ex-parte* and the same is pending for disposal.

2. For the period 2012-13

An assessment order dated July 29, 2016 was passed against the Company by Deputy Commissioner of Commercial Taxes raising a total demand of ₹19,40,811 including interest of ₹ 29,360. The said demand was raised after declaring excess payment by the Company in its returns and disallowing input tax credit of the Company to a tune of ₹2,50,675. The said demand is still outstanding against the Company.

3. For the period from 01.04.2005 to 30.11.2008

A memorandum of appeal has been filed by Bapi Construction (subsequently merged with the Company) before the Hon'ble Orissa Sales Tax Tribunal, Cuttack against an order dated July 31, 2012 passed by the Deputy Commissioner of Sales Tax (Appeals). As per the impugned order a demand of ₹47,47,347 was assessed by the Appellate Authority against the Company reducing it from ₹ 3,23,64,378 which included a penalty of ₹ 2,15,76,252 which was originally assessed by the Sales Tax Officer, Bhubaneswar. The said demand was raised on account of reassessed turnover of ₹12,63,57,743 after an audit assessment was conducted by the Assessing Officer. Currently the said appeal is pending for disposal before the Hon'ble Tribunal.

4. For the quarter ended March 31, 2007

a) A Writ Petition dated October 14, 2015 was filed before the High Court of Calcutta against the order dated April 11, 2012 passed against Bapi Construction (subsequently merged with the Company) by the Fast Track Revisional Authority, Bench-II ("Fast Track Court") in case number CCT.WB/F.T./REV./836 & 837/2011-12. As per the impugned order the Company had preferred claims under section 8(1) (a) and 8 (1) (b) of CST Act, 1956 but claims were not supported with form 'C' and 'D'. Hence, the Company was allowed credit of ₹ 2,93,21,170 instead of ₹ 3,79,97,446. Again, the Company had preferred claims under section 6(2) of CST Act, 1956, without form 'C' and 'D' and so the Company was allowed ₹ 1, 71,63,587 instead of ₹ 3,71,65,041. Aggrieved by the said order the Company filed the Writ Petition before the Hon'ble Court and also stated that its claim for adjustment of input tax credit was not considered and that the Company was wrongly assessed for a demand of ₹ 44,40,602. The Petition is currently pending for disposal.

c) An order dated April 11, 2012 was passed against U.K. Construction (subsequently merged with the Company) by the Fast Track Revisional Authority, Bench-II ("Fast Track Court") in case number CCT.WB/F.T./REV./835/2011-12. As per the order the dispute in the assessment for the period 2006-07 was with respect to disallowance of input tax credit for an amount of ₹ 1,86,706. The appeal which was filed by the Company against the order of the Assessing Officer was later on dismissed by the Fast Track Court, confirming the demand of Assessing Officer. The said demand is currently outstanding against the Company.

4. For the quarter ended March 31, 2006

A Memorandum of Appeal dated December 23, 2011 was filed by the Company before the Appellate and Revisional Board, West Bengal (the "Board") against an order dated November 9, 2011 passed by Sr. Joint Commissioner Commercial Taxes, Kolkata confirming the demand raised by the Sales Tax Officer. The Sales Tax Officer had issued two notices of demand, both dated November 27, 2009 under the West Bengal Value Added Tax Rules, 2005 and Central Sales Tax (West Bengal Rules, 1958) for an amount of ₹ 6,25,679 and ₹ 65,48,509 respectively against U.K. Construction (subsequently merged with the Company). As per the present appeal, the Sales Tax Officer at the time of computation of tax on contract transfer price followed the prescription as per rule 30 (2) of the West Bengal VAT Rules 2005 as "supply

and fitting of equipment of electrical goods, supply and installation of electrical equipment including transformers” but computed the tax in the ratio of 15:5:80 as against 20:50:30 as mentioned in said rule. Being aggrieved by the order of Sales Tax Officer and then confirmation of demand by the Appellate Authority, the Company filed the present appeal before the Board and the same is currently pending for disposal.

b) A Memorandum of Appeal dated December 23, 2011 was filed by the Company before the Appellate and Revisional Board of West Bengal (the “Board”) against an order dated November 9, 2011 passed by Sr. Joint Commissioner Commercial Taxes, Kolkata confirming the demand raised by the Sales Tax Officer. The Sales Tax Officer had issued two notices of demand, both dated November 27, 2009 under the West Bengal Value Added Tax Rules, 2005 and Central Sales Tax (West Bengal Rules, 1958) against for an amount of ₹ 7,77,249 and ₹ 15,33,029 was respectively. As per the present appeal, the Sales Tax Officer at the time of computation of tax on contract transfer price followed the prescription as per rule 30(2) of the West Bengal VAT Rules 2005 as “supply and fitting of equipment of electrical goods, supply and installation of electrical equipment including transformers” but computed the tax in the ratio of 15:5:80 as against 20:50:30 as mentioned in said rule. Service Tax

1. For the period 2007 to 2009

An order dated November 29, 2013 was passed by Additional Commissioner of Service Tax, Kolkata raising a demand of ₹ 6,45,824 against the Company on the ground that it had not disclosed its earnings against the taxable service under the head Business Auxiliary Service. Aggrieved by the said order the Company filed an appeal before the Commissioner of Central Excise, Appeal-I which was rejected vide an order dated January 30, 2017 upholding the order passed by the Adjudicating Authority and confirming the demand of ₹ 6,45,824 against the Company. The Company is in the process of filing an appeal against the said order of the Appellate Authority and the said demand is currently outstanding against the Company.

2. For the period from 01.04.2005 to 31.03.2008

A show-cause notice dated June 30, 2009 was issued by Sales Tax Officer initiating proceedings against the Company and raising a demand of ₹ 40,35,522. An appeal was filed by the Company before the Additional Commissioner, Service Tax, Kolkata (ADST) which passed an order dated March 21, 2011 stating that the services provided by the Company for executing the work of electrification of shifting of cross over and shunting neck and OHE modification and private railway sidings are covered under the definition of ‘erection, commissioning and installation’ and that the word ‘railways’ is wide enough to cover the activities done by the Company and directed to drop the proceedings initiated against the Company. The Department challenged this Appellate Order by filing an appeal dated June 17, 2011 with the Commissioner of Central Excise, Appeal-I (CCE). Currently, the matter is pending before CCE for disposal.

4. Other Pending Litigations

1. An arbitration award dated April 8, 2011 was passed by the Arbitral Tribunal in the proceedings initiated by the Company which arose out of contract agreement numbering CEE/D/CON/TRD/809 dated September 5, 2002 entered by the Company with Chief Electrical Distribution Engineer (“CEDE”) relating to ADA division-renewal/rehabilitation of overhead equipment and power supply equipment. As per the award the CEDE was *inter-alia* required to release the retention money of ₹ 44,66,582 and the Company was required to pay an amount of ₹ 4,48,387 to CEDE. The said award was challenged by the Government vide a civil suit numbering 669 of 2011 before the Hon’ble High Court of Calcutta where the said matter is pending for disposal.

2. The Company has, in its suit, prayed for a decree for damages and/or compensation amount, cost of the suit and for other legal and equitable reliefs. Currently the said matter is pending before the court for disposal.
4. Our Company had filed a petition number ARB.P 400/2018 under Section 11 of the Arbitration and Reconciliation Act, 1996 against Union of India, Through General Manager, Northern Railways (Northern Railways), praying for appointment of an arbitration for adjudication of dispute between the Company and Northern Railways. As per the petition of the Company the Company had applied for short closure of the contract number 231-Dy. CEE/C/NDLS/2008-2009 for “Design, supply, erection, testing & Commissioning of 25 Kv OHE work for 4th line between J. Cabin TKD to Palwal” and also submitted final bill along with Price Variance Bill for an amount of ₹ 2,76,14,099. The petition further stated that the Northern Railways had not taken any step on the pending amount. The Hon’ble Court, vide its order dated May 28, 2018 accepted the plea of the Company, observing that the amount of claim was not very large and a sole arbitrator may be appointed. Currently, the matter is pending before the Arbitrator for disposal.
5. A complaint numbering 184 of 2015 was filed by the Company and Bapi Construction and U.K. Construction (both merged with the Company) before the Hon’ble State Consumer Disputes Redressal Commission, West Bengal against United India Insurance Company Limited for compensation of ₹ 78,66,000 including interest of ₹30,40,002. The Company had taken insurance policies in the name of U.K. Construction and Bapi Construction for the period covering November 19, 2010 to November 18, 2011 for Storage- cum- Erection. An incident of burglary of OHE materials by some unknown miscreants who broke into main door of the godown from Kanthi godown at Tamluk Kanthi site under Southern Railways occurred which was reported to the insurance company. The Company had also paid the amount of such loss to the Southern Railways. After getting a survey of the incident conducted, the claim was rejected by the insurance company on the basis of report of the surveyor. Vide its letter dated March 18, 2013 the insurance company repudiated the claim of the Company stating that the loss was an inventory loss. The Company sent several reminders followed by notice of demand to the insurance company which were not responded by the insurance company. Then, the Company filed the aforesaid complaint alleging that such repudiation was contravention of terms and conditions of the insurance policy and the complaint is currently pending for disposal.

SEBI, vide circular no. CIR/CFD/14/2012 dated October 4, 2012 has introduced an additional mechanism for investors to submit Application Forms in public issues using the stock broker ('broker') network of Stock Exchanges, who may not be syndicate members in an issue with effect from January 1, 2013. The list of broker centres is available on the websites of BSE i.e. www.bseindia.com. With a view to broad base the reach of investors by substantially enhancing the points for submission of applications, SEBI vide circular no. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 has permitted Registrar to the Issue and Share Transfer Agent and Depository Participants registered with SEBI to accept the Application forms in Public Issue with effect from January 1, 2016. The list of RTA and DP centres for collecting the application shall be disclosed and is available on the websites of BSE i.e. www.bseindia.com.

Applicant's Depository Account and Bank Details

Please note that, providing bank account details, PAN, Client ID and DP ID in the space provided in the Application Form is mandatory and applications that do not contain such details are liable to be rejected.

Applicants should note that on the basis of name of the Applicants, Depository Participant's name, Depository Participant Identification Number and Beneficiary Account Number provided by them in the Application Form, as entered into the Stock Exchange online system, the Registrar to the Issue will obtain from the Depository the demographic details including address, Applicants' bank account details, MICR Code and occupation (hereinafter referred to as 'Demographic Details'). These Demographic details would be used for all correspondence with the Applicants including mailing of the allotment advise. The demographic details given by Applicants in the Application Form would not be used for any other purpose by the Registrar to the Issue.

By signing the Application Form, the Applicant would be deemed to have authorized the depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on their records.

Submission of Application Form

All Application Forms duly completed shall be submitted to the Application Collecting Intermediaries.

The aforesaid intermediaries shall, at the time of receipt of application, give an acknowledgement to investor, by giving the counter foil or specifying the application number to the investor, as a proof of having accepted the application form, in physical or electronic mode, respectively.

Communications

All future communications in connection with Applications made in this Issue should be addressed to the Registrar to the Issue quoting the full name of the sole or First Applicant, Application Form number, Applicant's Depository account details, number of Equity Shares applied for, date of Application form, name and address of the Application Collecting Intermediary where the Application was submitted thereof and a copy of the acknowledgement slip.

The Company's shares bear ISIN: INE00SW01015

Other Instructions

Joint Applications in the case of Individuals

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Applicant whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Applicant and will be dispatched to his or her address as per the Demographic Details received from the Depository.

Multiple Applications

An Applicant should submit only one Application (and not more than one). Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

- a) All applications are electronically strung on first name, address (1st line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/ husband's name to determine if they are multiple applications
- b) Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually checked to eliminate possibility of data entry error to determine if they are multiple applications.
- c) Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of —know your client norms by the depositories. The Company reserves the right to reject, in its absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application either in physical or electronic mode, an ASBA Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB Submission of a second Application in such manner will be deemed a multiple Application and would be rejected. More than one ASBA Applicant may apply for Equity Shares using the same ASBA Account, provided that the SCSBs will not accept a total of more than five Application Forms with respect to any single ASBA Account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple Applications and are liable to be rejected. The Company, in consultation with the Lead Manager reserves the right to reject, in its absolute discretion, all or any multiple Applications in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple Applications is given below:

1. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII sub-accounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.
2. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

Permanent Account Number or PAN

Pursuant to the circular MRD/DoP/Circ 05/2007 dated April 27, 2007, SEBI has mandated Permanent Account Number (PAN) to be the sole identification number for all participants transacting in the securities market, irrespective of the amount of the transaction w.e.f. July 2, 2007. Each of the Applicants should mention his/her PAN allotted under the IT Act. Applications without the PAN will be considered incomplete and are liable to be rejected. It is to be specifically noted that Applicants should not submit the GIR number instead of the PAN, as the Application is liable to be rejected on this ground.

Our Company/ Registrar to the Issue/ Lead Manager can, however, accept the Application(s) in which PAN is wrongly entered into by ASBA SCSB's in the ASBA system, without any fault on the part of Applicant.

PART B

GENERAL INFORMATION DOCUMENT FOR INVESTING IN PUBLIC ISSUES

This General Information Document highlights the key rules, processes and procedures applicable to public issues in accordance with the provisions of the Companies Act, 2013 (to the extent notified and in effect), the Companies Act, 1956 (without reference to the provisions thereof that have ceased to have effect upon the notification of the Companies Act, 2013), the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957 and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009. Following are the eligibility requirements for making an SME IPO under Regulation 106M (2) of Chapter XB of SEBI ICDR Regulations:

- I. In accordance with Regulation 106(P) of the SEBI ICDR Regulations, Issue has to be 100% underwritten and the LM has to underwrite at least 15% of the total issue size.
- II. In accordance with Regulation 106(R) of the SEBI ICDR Regulations, total number of proposed allottees in the Issue shall be greater than or equal to fifty, otherwise, the entire application money will be refunded forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, then the Company and every officer in default shall on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under sec 40 of the Companies Act, 2013.
- III. In accordance with Regulation 106(O) the SEBI ICDR Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issued any observations on the Offer Document. The Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including

- additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
- IV. In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the LM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the Issue.
 - V. The Issuer shall have Net Tangible assets of at least ₹ 3 crore as per the latest audited financial results.
 - VI. The Net worth (excluding revaluation reserves) of the Issuer shall be at least ₹ 3 crore as per the latest audited financial results.
 - VII. The Issuer should have a track record of distributable profits in terms of Section 123 of Companies Act, 2013 for two out of immediately preceding three financial years or it should have net worth of at least ₹ 5 Crores.
 - VIII. The Post-issue paid up capital of the Issuer shall be less than ₹ 25 Crores.
 - IX. The Issuer shall mandatorily facilitate trading in demat securities.
 - X. The Issuer should not be referred to Board for Industrial and Financial Reconstruction.
 - XI. No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company.
 - XII. No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the Issuer.
 - XIII. The Company should have a website.
 - XIV. There has been no change in the promoter of the Company in the one year preceding the date of filing application to BSE for listing on SME segment. Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter X-B of SEBI ICDR Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 7, Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI ICDR Regulations, 2009 shall not apply to this Issue.

Thus, Company is eligible for the Issue in accordance with regulation 106M (2) and other provisions of chapter XB of the SEBI ICDR Regulations as the post issue face value capital exceeds Rs. 1,000 Lacs. Company also complies with the eligibility conditions laid by the SME Platform of BSE for listing of our Equity Shares.

2.3 Types of Public Issues - Fixed Price Issues and Book Built Issues

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“Book Built Issue”) or undertake a Fixed Price Issue (“Fixed Price Issue”). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in the Draft Prospectus (in case of a Fixed Price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.4 Issue Period

The Issue shall be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period. Details of Issue Period are also available on the website of Stock Exchange(s).

2.5 Migration to Main Board

SME Issuer may migrate to the Main Board of Stock Exchange from the SME Exchange at a later date subject to the following:

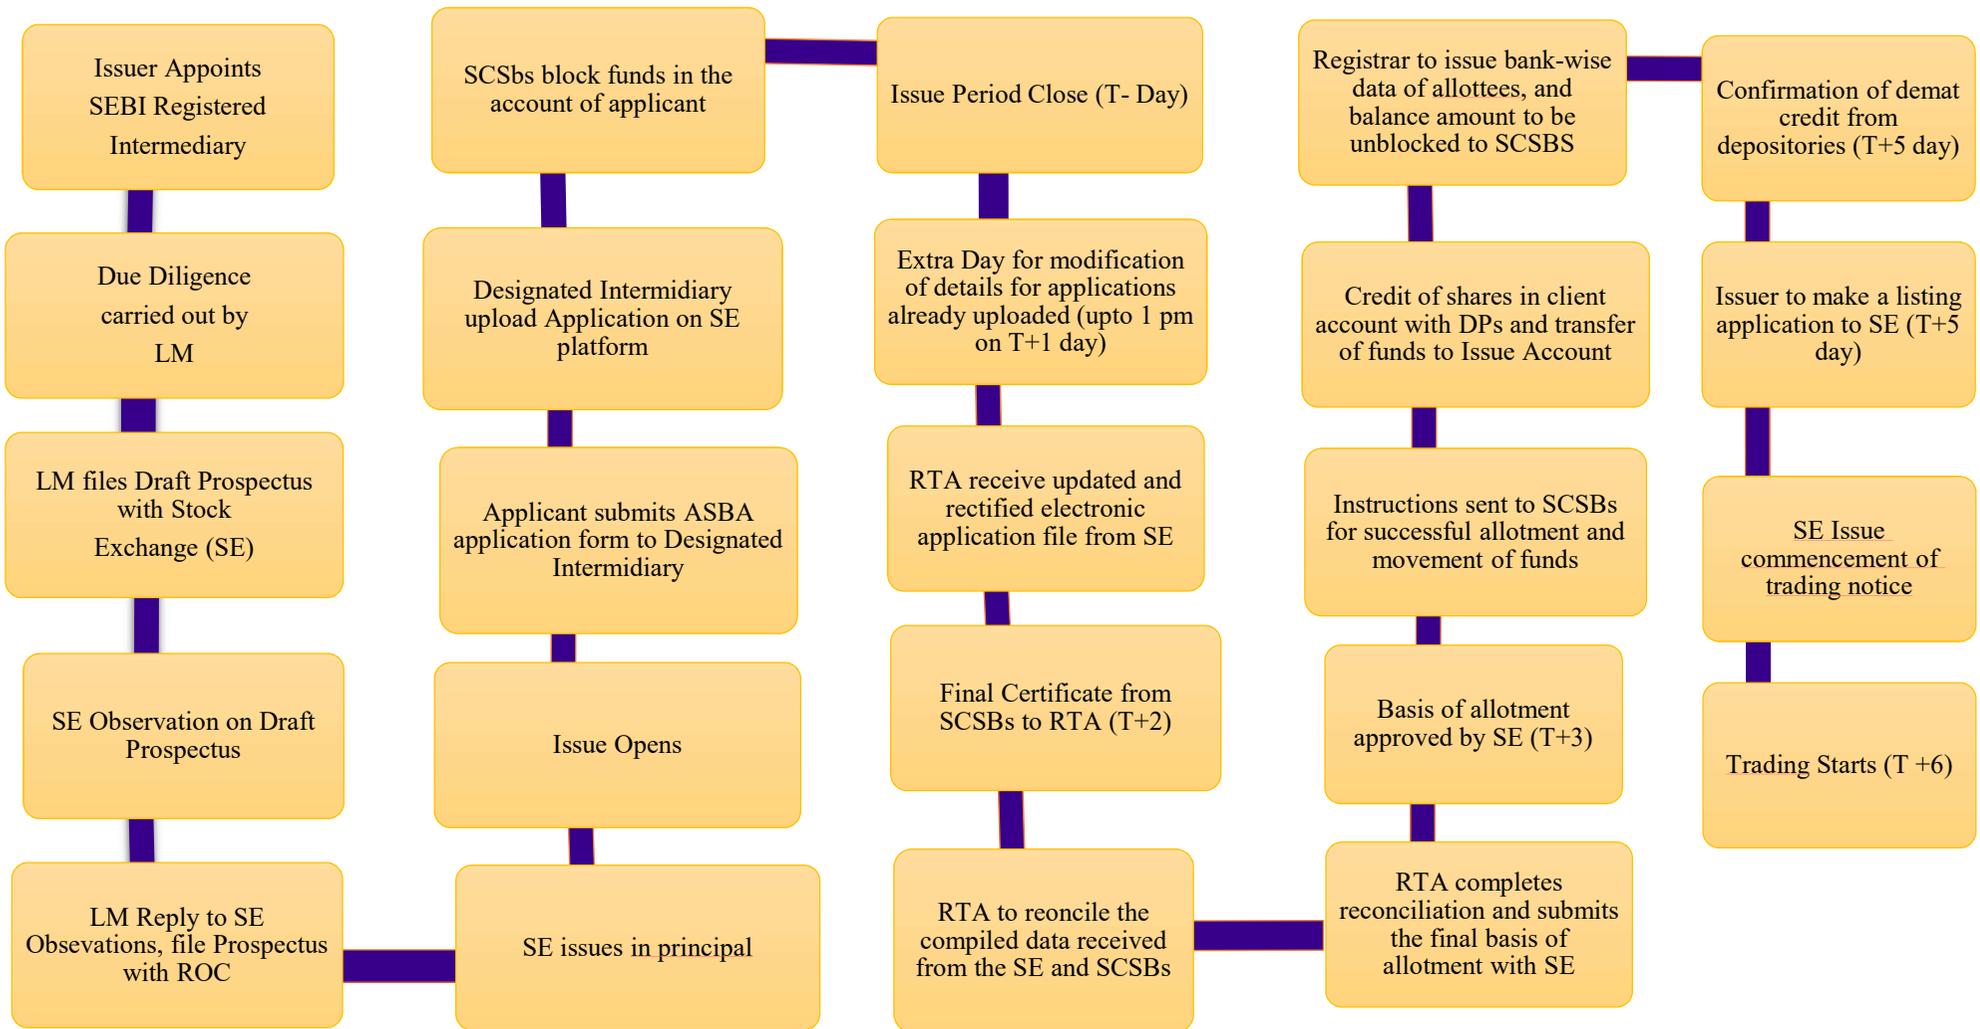

(a) If the Paid up Capital of the Company is likely to increase above ₹ 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue, etc., (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

(b) If the Paid-up Capital of the company is more than ₹10 crores but below ₹ 25 crores, the Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/ FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- a. **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications (letters notifying the unblocking of the bank accounts of Applicants) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- b. **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- c. **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

‘Any person who:

- makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or
 - makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
 - otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name, shall be liable for action under section 447 of the said Act.’
- d. **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- a. PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories’ records.
- b. PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim (“PAN Exempted Applicants”). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.

- c. The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.
- d. Application Forms which provide the General Index Register Number instead of PAN may be rejected.
- e. Applications by Applicants whose demat accounts have been “suspended for credit” are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and Demographic Details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- a. Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the Application Form is liable to be rejected.
- b. Applicants should ensure that the beneficiary account provided in the Application Form is active.
- c. Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to an Issue.
- d. Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- I. The Issuer may mention Price in the Draft Prospectus. However, a prospectus registered with RoC contains one price.
- II. Minimum and Maximum Application Size

a) For Retail Individual Applicants

The Application must be for a minimum of [●] Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for [●] Equity Shares.

b) For Other Applicants (Non-Institutional Applicants and QIBs)

The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of [●] Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non-Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

- c) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to Application Collecting Intermediary and duplicate

copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.

- d) Applicants are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple applications:
- I. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
 - II. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- e) The following applications may not be treated as multiple Applications:
- I. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
 - II. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the scheme for which the Application has been made.
 - III. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- i. The categories of applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Application, allocation and allotment in the Issue are RIIs, individual applicants other than RII's and other investors (including corporate bodies or institutions, irrespective of the number of specified securities applied for).
- ii. An Issuer can make reservation for certain categories of Applicants permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, applicants may refer to the Draft Prospectus.
- iii. The SEBI ICDR Regulations, 2009 specify the allocation or allotment that may be made to various categories of applicants in an Issue depending upon compliance with the eligibility conditions. For details pertaining to allocation and Issue specific details in relation to allocation, applicant may refer to the Draft Prospectus.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details.
- c) Applicants should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.
- d) Applicants should ensure that their investor status is updated in the Depository records.

4.1.7 FIELD 7: PAYMENT DETAILS

- a) All Applicants are required to use ASBA facility to block the full Amount (net of any Discount, as applicable) along-with the Application Form. If the Discount is applicable in the Issue, the RIIs should indicate the full Amount in the Application Form and the funds shall be blocked for Amount net of

Discount. Only in cases where the Prospectus indicates that part payment may be made, such an option can be exercised by the Applicant.

- b) All categories of investors can participate in the Issue only through ASBA mechanism.
- c) Application Amount cannot be paid in cash, through money order or through postal order or through stock invest.

Please note that, providing bank account details in the space provided in the Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1 Payment instructions for Applicants

- a) Applicants may submit the Application Form either
 - 1. in electronic mode through the internet banking facility offered by an SCSB authorizing blocking of funds that are available in the ASBA account specified in the Application Form, or
 - 2. in physical mode to any Application Collecting Intermediaries.
- b) Applicants should specify the Bank Account number in the Application Form. The Application Form submitted by an Applicant and which is accompanied by cash, demand draft, money order, postal order or any mode of payment other than blocked amounts in the ASBA Account maintained with an SCSB, may not be accepted.
- c) Applicants should ensure that the Application Form is also signed by the ASBA Account holder(s) if the Applicant is not the ASBA Account holder.
- d) Applicants shall note that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- e) From one ASBA Account, a maximum of five Application Forms can be submitted.
- f) Applicants applying through a Registered Broker, RTA or CDP should note that Application Forms submitted to them may not be accepted, if the SCSB where the ASBA Account, as specified in Application Form, is maintained has not named at least one branch at that location for the Registered Brokers, RTA or CDP, as the case may be, to deposit Application Forms.
- g) Applicants applying directly through the SCSBs should ensure that the Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained.
- h) Upon receipt of the Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form.
- i) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Application Amount mentioned in the Application Form and may upload the details on the Stock Exchange Platform.
- j) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not upload such Applications on the Stock Exchange platform and such Applications are liable to be rejected.
- k) Upon submission of a completed Application Form each Applicant may be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount specified in the Application Form in the ASBA Account maintained with the SCSBs.
- l) The Application Amount may remain blocked in the aforesaid ASBA Account until finalization of the Basis of allotment and subsequent transfer of the Application Amount against the Allotted Equity Shares, if any, to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Application, as the case may be.
- m) SCSBs applying in the Issue must apply through an Account maintained with any other SCSB; else their Applications are liable to be rejected.

4.1.8 Unblocking of ASBA Account

- a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful applications transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Application, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Application, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected/ partial/ non allotment ASBA Applications, if any, along with reasons for rejection and details of withdrawn or unsuccessful Applications, if any, to enable the SCSBs to unblock the respective bank accounts.
- b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful Application to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- c) In the event of withdrawal or rejection of the Application Form and for unsuccessful Applications, the Registrar to the Issue may give instructions to the SCSB to unblock the Application Amount in the relevant ASBA Account within 6 Working Days of the Issue Closing Date.

4.1.8.1 Discount (if applicable)

- a) The Discount is stated in absolute rupee terms.
- b) RIIs, Employees and Retail Individual Shareholders are only eligible for discount. For Discounts offered in the Issue, applicants may refer to the Prospectus.
- c) For the Applicants entitled to the applicable Discount in the Issue the Application Amount less Discount (if applicable) shall be blocked.

4.1.8.2 Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds in their Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of applications by NRIs applying on a repatriation basis, payment of funds in their NRO Account shall not be accepted.

4.1.9 FIELD NUMBER 8: SIGNATURES AND OTHER AUTHORISATIONS

- a) Only the First Applicant is required to sign the Application Form. Applicants should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- b) If the ASBA Account is held by a person or persons other than the Applicant, then the Signature of the ASBA Account holder(s) is also required.
- c) In relation to the ASBA Applications, signature has to be correctly affixed in the authorization/undertaking box in the Application Form, or an authorization has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the application amount mentioned in the Application Form.
- d) Applicants must note that Application Form without signature of Applicant and /or ASBA Account holder is liable to be rejected.

4.1.10 ACKNOWLEDGEMENT AND FUTURE COMMUNICATION

- a) Applicants should ensure that they receive the acknowledgment duly signed and stamped by Application Collecting Intermediaries, as applicable, for submission of the Application Form.
- b) All communications in connection with Applications made in the Issue should be addressed as under:
 - I. In case of queries related to Allotment, non-receipt of Allotment Advice, credit of allotted equity shares, the Applicants should contact the Registrar to the Issue.

- II. In case of Applications submitted to the Designated Branches of the SCSBs or Registered Brokers or Registered RTA/DP, the Applicants should contact the relevant Designated Branch of the SCSB or Registered Brokers or Registered RTA/DP, as the case maybe.
- III. Applicant may contact the Company Secretary and Compliance Officer or LM(s) in case of any other complaints in relation to the Issue.
- c) The following details (as applicable) should be quoted while making any queries –
 - i. Full name of the sole or First Applicant, Application Form number, Applicants' DP ID, ClientID, PAN, number of Equity Shares applied for, amount blocked on application.
 - ii. name and address of the Application Collecting Intermediary, where the Application was submitted; or
 - iii. In case of ASBA applications, ASBA Account number in which the amount equivalent to the application amount was blocked.

For further details, Applicant may refer to the Prospectus and the Application Form.

4.2 INSTRUCTIONS FOR FILING THE REVISION FORM

- a) During the Issue Period, any Applicant (other than QIBs and NIIs, who can only revise their application amount upwards) who has registered his or her interest in the Equity Shares for a particular number of shares is free to revise number of shares applied using revision forms available separately.
- b) RII may revise their applications till closure of the Issue period or withdraw their applications until finalization of allotment.
- c) Revisions can be made in both the desired number of Equity Shares and the Application Amount by using the Revision Form.
- d) The Applicant can make this revision any number of times during the Issue Period. However, for any revision(s) in the Application, the Applicants will have to use the services of the same Application Collecting Intermediaries through which such Applicant had placed the original Application.

SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the SME Platform of BSE (the Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- c) For applications where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - i. Each successful Applicant shall be allotted [●] equity shares; and
 - ii. The successful Applicants out of the total applicants for that category shall be determined by the draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d) If the proportionate allotment to an Applicant works out to a number that is not a multiple of [●] equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Draft Prospectus.
- f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:
 - I. As per Regulation 43(4) of SEBI ICDR Regulations, as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - II. The balance net offer of shares to the public shall be made available for allotment to:
 - individual applicants other than retails individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
 - III. The unsubscribed portion of the net offer to any one of the categories specified in i) or ii) shall/may be made available for allocation to applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than ₹ 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with SE.

The Executive Director / Managing Director of BSE - the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI ICDR Regulations.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government of India has from time to time made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2017 (“FDI Policy 2017”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue

The Equity Shares have not been and will not be registered under the Securities Act or any state securities laws in the United States, and, unless so registered, may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.

Accordingly, the Equity Shares are being offered and sold (a) in the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the Securities Act and referred to in this Draft Prospectus as "U.S. QIBs" pursuant to the private placement exemption set out in Section 4(a)(2) of the Securities Act; for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Draft Prospectus as "QIBs"), in transactions exempt from the registration requirements of the Securities Act and (b) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The above information is given for the benefit of the Bidders. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.
